

Oklahoma Seismicity Bulletin, November 2025

Snapshot of earthquake map for November 2025. Circles are earthquakes (larger circle means larger earthquake), diamonds are quarry blasts, triangles are seismic stations. There were 152 earthquakes this month in the state.

Most active counties this month:

Carter: 21 events
Jefferson: 18 events
Grady: 15 events
Lincoln: 14 events
Murray: 10 events

Magnitude snapshot this month:

2.0-2.9: 19 events
1.0-1.9: 112 events
0.0-0.9: 21 events

Oklahoma Seismic Network News

The OGS seismic team installed or upgraded 7 new stations this month. Recent installs/upgrades were: 6 in October, 9 in September, 8 in August, and 7 in July. Some temporary stations have also been retired. This brings the total OGS station count to 145. New installs and upgrades use the newer, OGS owned equipment (not piecemeal or borrowed) and the deeper (8 foot) vault design. No more flooding pickle barrel vaults will be deployed at new installs, and we're replacing them when upgrading existing stations.

If you're interested in hosting a seismic station, or know someone who might be, here's a link to submit a brief application:
