

## Oklahoma Seismicity Bulletin, February 2026

Snapshot of earthquake map for February 2026. Circles are earthquakes (larger circle means larger earthquake), diamonds are quarry blasts, triangles are seismic stations. There were 443 earthquakes this month in the state.

Most active counties this month:  
Canadian: 191 events  
Carter: 123 events  
Blaine: 32 events  
Jefferson: 13 events  
McClain: 11 events

Magnitude snapshot this month:  
3.0-3.9: 4 event  
2.0-2.9: 45 events  
1.0-1.9: 370 events  
0.0-0.9: 24 events

### Oklahoma Seismic Network News

This month, the OGS seismic team installed 10 new stations, and drilled some new vaults to prepare for installs. This brings the total OGS station count to 150. The field technicians have been alternating weeks between drilling vaults and installing equipment, making some overnight trips for distant stations. New installs and upgrades use the newer, OGS owned equipment (not piecemeal or borrowed) and the deeper (8 foot) vault design. No more flooding pickle barrel vaults will be deployed at new installs, and we're replacing them when upgrading existing stations.

If you're interested in hosting a seismic station, or know someone who might be, here's a link to submit a brief application:
