

Oklahoma Seismicity Bulletin, July 2026

Snapshot of earthquake map for July 2026. Circles are earthquakes (larger circle means larger earthquake), diamonds are quarry blasts, triangles are seismic stations. There were 244 earthquakes this month in the state.

Most active counties this month:

Grady: 70 events
 Stephens: 39 events
 Murray: 20 events
 Tulsa: 14 events
 Lincoln: 13 events

Magnitude snapshot this month:

4.0-4.9: 1 event
 3.0-3.9: no events
 2.0-2.9: 5 events
 1.0-1.9: 156 events
 0.0-0.9: 82 events

Oklahoma Seismic Network News

This month, the OGS seismic team installed 6 new stations, upgraded some, and drilled some new vaults to prepare for installs. This brings the total OGS (permanent) station count to 147. New installs and upgrades use the newer, OGS owned equipment (not piecemeal or borrowed) and the deeper (8 foot) vault design. No more flooding pickle barrel vaults will be deployed at new installs, and we're replacing them when upgrading existing stations.

If you're interested in hosting a seismic station, or know someone who might be, here's a link to submit a brief application:
