

Fall 2026 Activity Guide

Four Friday Nights. Four Unique Adventures.

Each Precollegiate Nights event features a unique theme inspired by a family-friendly film. Students will participate in hands-on activities, enjoy dinner with friends, and end the evening with a movie in a safe and welcoming campus environment.

Precollegiate Nights: Homecoming

September 11 | Featured Film: *Monsters University*

School Spirit • Community • College Traditions

Students will discover how school spirit and university traditions create a sense of community and belonging while learning about the University of Oklahoma. They will then create their own pennants, banners, or spirit signs to celebrate their school and community.

Featured experiences include:

- Learning about OU traditions
- Creating school spirit artwork
- Celebrating the beginning of the school year

Precollegiate Nights: Fall Break

October 2 | Featured Film: *Toy Story*

Creativity • Engineering • Innovation

Students will explore how everyday objects can be repaired, redesigned, and transformed into something new. Using recycled and craft materials, they will invent and build an original toy during a creative engineering challenge.

Featured experiences include:

- Completing an engineering design challenge
- Inventing and building an original toy
- Practicing creativity and problem-solving

Precollegiate Nights: Give Thanks

November 6 | Featured Film: *Brave*

Gratitude • Teamwork • Friendship

Students will reflect on the importance of gratitude, family, and friendship while completing collaborative LEGO building challenges. Each challenge will encourage communication, creativity, teamwork, and shared problem-solving.

Featured experiences include:

- Completing collaborative LEGO challenges
- Practicing communication and teamwork
- Reflecting on gratitude and friendship

Precollegiate Nights: Snow Day

December 4 | Featured Film: *Ice Age*

Winter Weather • STEM • Discovery

Students will investigate winter weather and the science behind snow, ice, and seasonal storms through interactive STEM activities before ending the semester with a winter movie celebration.

Featured experiences include:

- Exploring winter weather
- Participating in a hands-on STEM activity
- Learning from university experts

Activities may be developed in collaboration with the University of Oklahoma School of Meteorology.

Every Precollegiate Night Includes

- An interactive, hands-on activity
- Dinner
- A family-friendly movie
- A safe and supervised campus environment
- A memorable learning experience with Precollegiate Programs at the University of Oklahoma
