Memorandum

TO: University Faculty
FROM: Academic Records
DATE: December 7, 2010
SUBJECT: Fall 2010 Final Grade Instructions

This email provides an introduction to and some basic instructions for your participation in Fall 2010 Final Grades.

The deadline for submitting final grades for Fall 2010 is Tuesday, December 21st, at 5:00 pm.

Unlike our previous grading process prior to December 2009 Intersession, we have moved to a completely online grading process. Faculty here and our colleagues at other institutions using this same system have told us that the grading process is so straightforward they have done little or no training, other than basic instructions. Our December Intersession, Spring and Summer 2010 grading periods have shown this to be true, as well.

Below are the basic instructions for your grading process in oZONE. Please read through these carefully and feel free to contact me, or Laurie Tinsley, with any questions or comments you may have. Our contact information is included below. Thanks so much for your participation and help with what we believe is a real step forward for our faculty. If you have any questions, please contact me at rskeel@ou.edu or at 325-6196 or Laurie at ltinsley@ou.edu or at 325-6014.

Rick Skeel

Ozone Student Team Lead
Final Grade Process in Ozone

Logging in to Ozone

To log in to Ozone to begin this process go to ozone.ou.edu. Enter your 4+4 and password, as you would in any other system.

Accessing Your Final Grade Worksheet

There are two methods for accessing your grade roster on the web:

Primary Method:

Once you have logged in to Ozone, select the Faculty and Staff tab. The last channel on the left column of that page will display the courses that are available to be graded.

Click on the grade submission icon by the course you want to grade - ▶️
This will open the Final Grade Worksheet for your course.

** Note – Do not click on the course title in the Faculty Grade Assignment channel. Doing this will bring you a list of courses from the catalog and will not allow you to load grades.

Once all of the grades have been entered for your course the icon will change to - ✔️

For step-by-step instructions, see Faculty Grade Assignment Channel at http://www.ou.edu/content/dam/portal/documents/oZONE%20Faculty%20Grade%20Assignment%20channel.pdf

Alternative Method:

Once you have logged in to Ozone, select the Faculty and Staff tab.

In the Faculty and Staff Academic Services channel, click on the link

- Look up students, view holds, remove advising flags.

This will take you to the Faculty and Advisors Menu.

Click on Final Grades under My Courses.
Select desired term from the pull down menu.
Click on Submit Term.
Select desired class from the list of courses you are teaching
Click on Submit Term.
This will open the Final Grade Worksheet for your course.
**Submitting Your Final Grades**

The Final Grade Worksheet will provide you a list of students still actively enrolled in your course. You may enter grades by using the drop down box or by typing in the grade for each student.

*IMPORTANT*

The online grading system will restrict the grades available from the drop down list to those set up as appropriate to the class, as defined by Faculty Senate and State Regents policies. If you think the grades available are not appropriate, please contact me or Laurie Tinsley in Academic Records before entering or submitting your grades.

While entering grades, save your work often by clicking on Submit button at the bottom of the class list. This not only ensures that your work is saved but keeps your web session active. Each time you submit grades just entered you will get a message on the screen that says “Your grades have been successfully submitted”.

We are now asking that you enter a date of last attendance when turning in a grade of F or an AW for a student who never attended or stopped attending. If the student never attended, you can put a 0 in the "Attend Hours" field, if you prefer, instead of a date of last attendance.

If you enter a grade or more than one grade and fail to click on submit grades, then the grade information will not be saved into the system. Every student must be assigned a grade.

You don’t have to enter all your grades in one session. In the column titled “rolled” as long as there is a NO in the column, you can continue to enter or change grades online. Once a YES appears in that column, it means the grade has been posted to the student’s transcript and it cannot be changed except through the grade change process. When you think you are finished submitting all grades for your course, please verify there is a grade entered for each student in your class.
