Two courses are offered there:

**Managerial Economics**
Discusses several macro and micro economic topics from an international perspective.

**Strategic Management**
Uses a combination of theoretical discussion, international case studies, the instructor’s own international business experience, and a proven framework of a super-major to understand how to apply strategy in international settings.

Cultural exposure to a few of the iconic landmark in London.

Several EMBA courses examine and discuss topics encompassing the global nature of the energy.
