AGENDA ITEM 1

ISSUE: NONSUBSTANTIVE CHANGES – CU

ACTION PROPOSED:

President McArthur recommends the Board of Regents approve the proposed changes to the Cameron University academic programs.

BACKGROUND AND/OR RATIONALE:

Oklahoma State Regents for Higher Education policy 3.4.3.A requires that substantive changes in programs require approval from the institutional governing board and the State Regents.

The Oklahoma State Regents for Higher Education require that all substantive changes be presented to the institution's governing board for approval before being forwarded to the State Regents for consideration. The changes in the academic organization and programs presented below have been approved by the Vice President for Academic Affairs and the President of the University. The change is being submitted to the Board of Regents for approval prior to submission to the State Regents.

ACADEMIC AFFAIRS RESTRUCTURING

Academic Affairs proposes to initiate the following plans for restructuring, to be effective August 1, 2022:

Department of Computing and Mathematical Sciences
Department of Military Science

AGENDA ITEM 2

ISSUE: REVISIONS TO CU FACULTY HANDBOOK – CU

ACTION PROPOSED:

President McArthur recommends the Board of Regents approve revisions to the Cameron University Faculty Handbook.

BACKGROUND AND/OR RATIONALE:

Section 1.2.6.A of the Regents' Policy Manual grants the Board the power to adopt such rules and regulations, as it deems necessary, to govern the University.

Cameron has reviewed its Faculty Handbook for relevant revisions.

The review prompted revisions in several areas. The proposed revisions fall into one of the following categories:

- Changing “regionally” to “institutionally” when referring to accreditation (as recommended by the Higher Learning Commission).
- Adding a syllabus policy statement
- Revising the membership for the Developmental Education Assessment Committee
- Revising the membership for the Institutional Assessment Committee
- Adding the membership and description for the Institutional Animal Care And Use Committee

The revised Faculty Handbook is included as an appendix with the proposed revisions noted. The Table of Contents, references, and formatting will be updated upon Board approval. The office of Legal Counsel has reviewed the proposed revisions.

AGENDA ITEM 3**ISSUE: CONTRACTS AND GRANTS – CU****ACTION PROPOSED:**

President McArthur recommends the Board of Regents ratify the awards submitted with this agenda item.

<u>Award Title</u>	<u>Grantor</u>	<u>Award Period</u>	<u>Award Amount</u>
Strengthening CU: Providing Non-academic Support to Increase Student Success Services	U.S. Dept. of Education	10/1/21 – 9/30/22	\$ 450,000
CU: Strengthening Resiliency By Expanding Opportunities	U.S. Dept. of Education	8/2/21 - 8/1/23	\$1,163,222
Student Support Services	U.S. Dept. of Education	09/01/21 - 08/31/22	\$ 460,680
Upward Bound	U.S. Dept. of Education	06/01/22 - 05/31/23	\$ 352,757
Talent Search Program	U.S. Dept. of Education	09/01/21 - 08/31/22	\$ 417,727

BACKGROUND AND/OR RATIONALE:

Regents' Policy 4.10.3 requires contracts involving annual revenues of \$50,000 or more to be reported to the Board. Additionally, if the agreement would establish or make policy of the University or would otherwise involve a substantial service to be performed by the University, it must be submitted to the Board for approval.

In accordance with Board policy, a list of awards and/or modifications in excess of \$250,000 or that establish or make policy for the University, or that otherwise involve a substantial or significant service to be performed by the University are shown below.

Strengthening CU: Providing Non-academic Support to Increase Student Success:

Grantor:	U.S. Department of Education		
Award Period:	10/1/21 - 9/30/22	\$	450,000
Performance Period:	10/1/20 - 9/30/25	\$	2,064,296
Remainder:	10/1/22 – 9/30/25	\$	1,257,382

Program Purpose: This program will create a Student Enrichment Center (SEC) that assists at-risk students with basic university requirements, and serves to motivate students toward the successful completion of their post-secondary educations. The goals of the SEC are to increase

persistence rates and completion rates for first-time full-time degree seeking students and transfer first-time at the institution full-time degree seeking students, provide at least 120 at-risk students a work-based learning experience aligned with in-demand industry sectors, and provide personal financial literacy, understanding, and responsibility support for at least 400 at-risk students.

Key services provided by the program include:

- Support for at-risk students by providing referrals for additional support needs as well as follow-up to those referrals
- Being a liaison between at-risk student and academic advisor
- Identify work-based experiences either on-campus or in the community of Southwest Oklahoma
- Financial literacy workshops
- Personal financial counseling to assist in building personal financial understanding and responsibility

CU: Strengthening Resiliency By Expanding Opportunities

Grantor: U.S. Department of Education

Award Period: 8/2/21 – 8/1/23 \$ 1,163,222

Performance Period: 8/2/21 – 8/1/23 \$ 1,163,222

Program Purpose: The objectives for this grant are 1.) To effectively use technology to enable safer in-person learning for students in Agriculture courses, 2.) To expand asynchronous distance education opportunities in Science, Technology, Engineering, and Mathematics (STEM) to undergraduate students, including dual enrollment students, and 3.) To expand access to college level courses for dual enrollment students at 12 rural high schools in CU's service area that have been identified as partners for this grant.

Key aspects of the grant's goals are to:

- Install fiber optic cable to the Agriculture Complex and University Farm
- Install distance education technology at the Ag Complex and University Farm
- Provide faculty training for use of distance education technology and offer blended and hybrid courses at the Ag Complex and University Farm
- Convert three unused spaces into instructional development centers for online STEM courses to facilitate the creation of additional STEM course offerings
- Hire two Instructional Extension Agents to work with rural high school partners
- Install fiber optics and wireless access to two rural high schools/communities that currently do not have that technology
- Purchase chromebooks for students at rural high schools to use while taking dual enrollment courses
- Recruit eligible high school students at the rural partners to participate in dual enrollment courses

Student Support Services:

Grantor: U.S. Department of Education

Award Period: 09/01/22 - 08/31/23 \$ 460,680

Performance Period: 09/01/20 - 08/31/25 \$ 2,303,400

Remainder: 09/01/23 – 08/31/25 \$ 921,360

Program Purpose: The Student Support Services (SSS) program provides opportunities for academic development, assists students with basic university requirements, and serves to motivate students toward the successful completion of their post-secondary educations. The SSS program may also provide grant aid to current SSS participants who are receiving Federal Pell Grants. The goal of SSS is to increase retention and graduation rates of its participants and facilitate the process of transition from one level of higher education to the next.

Services provided by the program include:

- Instruction in basic study skills
- Tutorial services
- Academic, financial, or personal counseling
- Assistance in securing admission and financial aid for enrollment in four-year institutions, graduate and professional programs
- Information about career options
- Mentoring
- Special services for students with limited English proficiency
- Direct financial assistance (grant aid) to current SSS participants who are receiving Federal Pell Grants

Upward Bound:

Grantor: U.S. Department of Education

Award Period: 06/01/22 - 05/31/23 \$ 352,757

Performance Period: 06/01/22 – 05/31/27 \$ 352,757

Remainder: \$ -0-

Program Purpose: Upward Bound provides fundamental support to participants in their preparations for university entrance. The program provides opportunities for participants to succeed in pre-universities performance and ultimately in higher education pursuits. Upward Bound serves high school students preparing to enter postsecondary education who come from low-income families or from families in which neither parent holds a bachelors degree. The goal of Upward Bound is to increase the rates at which participants enroll in and graduate from institutions of postsecondary education. All Upward Bound projects must provide instruction in math, laboratory science, composition, literature, and foreign language.

Program services include:

- Instruction in reading, writing, study skills, and other subjects necessary for success in education beyond high school
- Academic, financial, or personal counseling
- Exposure to academic programs and cultural events
- Tutorial services
- Mentoring programs
- Information on postsecondary education opportunities
- Assistance in completing university entrance and financial aid applications
- Assistance in preparing for university entrance exams
- Work study positions to expose participants to careers requiring a postsecondary degree

Talent Search/Open Doors:

Grantor:	U.S. Department of Education	
Award Period:	09/01/22 - 08/31/23	\$ 417,727
Performance period:	09/01/21 - 08/31/26	\$ 2,088,635
Remainder:	09/01/23 – 08/31/26	\$ 1,253,181

Program Purpose: The Talent Search/Open Doors program identifies and assists individuals from disadvantaged backgrounds who have the potential to succeed in higher education. The program provides academic, career, and financial counseling to its participants and encourages them to graduate from high school and continue on to the postsecondary schools of their choosings. Talent Search also serves high school dropouts by encouraging them to re-enter the educational system and complete their educations. The goal of Talent Search is to increase the number of youth from disadvantaged backgrounds who complete high school and enroll in the postsecondary education institutions of their choosings.

Services provided by the program:

- Academic, financial, career or personal counseling including advice on entry or re-entry to secondary or post-secondary programs
- Career exploration and aptitude assessment
- Tutorial services
- Information on postsecondary education
- Exposure to university campuses
- Information on student financial assistance
- Assistance in completing university admissions and financial aid applications
- Assistance in preparing for university entrance exams
- Mentoring programs
- Special activities for sixth, seventh and eighth graders
- Workshops for the families of participants

AGENDA ITEM 5**ISSUE: RESTATED FISCAL YEAR 2023 BUDGET – CU****ACTION PROPOSED:**

President McArthur recommends the Board of Regents approve the restated operating budget for Fiscal Year 2023 to reflect the reduction in undergraduate tuition and mandatory fee rates.

BACKGROUND AND/OR RATIONALE:

University budgets are regulated by CU/RSU Regents Policy Manual Buying and Selling Goods and Services Policy (4.10.1), Oklahoma State Regents for Higher Education Budget and Fiscal Affairs Educational and General Budgets Policy (4.1), and Oklahoma Statute 62, O.S. § 41.34.53.

Cameron University enters the 2022 – 2023 academic year having completed the fourth of five years toward meeting strategic planning goals established in *Plan 2023: Ambitious Goals for Growth, Innovation and Engagement*. The key goals of this plan will be used to assign budget allocations and to make budget decisions. The actions and initiatives to advance those goals for 2022 – 2023 include:

PLAN 2023 Goals

- Goal One – Transform student lives
 - Expand operations at the Student Enrichment Center to provide supplemental advising, financial literacy counseling, career mentoring, and internship placement
 - Consolidate or centralize open tutoring labs on the Lawton campus prior to FY24
- Goal Two - Provide quality educational opportunities for the diverse community of Cameron University learners
 - Increase student financial support
 - Expand engineering opportunities for students and employers in the Lawton-Fort Sill community
 - Develop and implement a student experiential portfolio to record service, awards, and work experiences to complement the academic transcript as a reference tool for prospective employers
- Goal Three – Recruit, develop, and retain highly qualified faculty and staff committed to advancing the mission of the university
 - Implement a strategic compensation update plan and provide the first year of compensation changes through a three-part program using merit funding, a market and equity adjustment component, and a cost of living adjustment
 - Continue and expand an employee professional development and alumni engagement learning platform

- Goal Four – Strengthen the economic, cultural, and civic life of the Cameron University service area in southwest Oklahoma and beyond
 - Reopen the university and welcome the community post-pandemic
 - Identify and contract speakers and activities for Academic Festival XII to be celebrated during the 2023 – 2024 academic year
- Goal Five – Renovate and refresh existing facilities and technologies to meet the needs of current and future students
 - Extend university advancement and fundraising efforts
 - Complete construction and renovation projects in Duncan and Lawton
- Goal Six – Establish a strong brand and identity for the university
 - Develop the next university strategic plan and campus master plan

BUDGET OVERVIEW:

Total projected revenue for FY 2023 is \$44,430,719 and is composed of the following:

• State appropriations	\$17,152,826	(38.6%)
• Tuition	\$18,830,688	(42.4%)
• Student fees	\$4,012,319	(9.0%)
• Gifts, grants and state program reimbursements	\$1,451,647	(3.3%)
• Other income	\$1,335,390	(3.0%)
• Federal Stimulus Funds-CARES Act	\$1,647,849	(3.7%)

Projected revenues include a \$537,992 increase in state appropriated funds, approximately \$1.65 million in federal stimulus funds, new tuition and fee revenue of \$162,000 from a requested 4.0% increase in tuition and mandatory fees to partially offset a 50% decrease in electronic media academic services fees. Supporting students and employees during an increased inflationary period remains an institutional priority for FY 2023.

Total expenditures for FY 2023 are projected to be \$45,662,093. The proposed budget includes the following expenditures:

• Instruction	\$21,744,792	(47.6%)
• Research	\$111,500	(0.2%)
• Public service	\$326,781	(0.7%)
• Academic support	\$2,162,444	(4.7%)
• Student services	\$4,837,366	(10.6%)
• Institutional support	\$4,680,705	(10.3%)
• Physical facilities	\$6,388,505	(14.0%)
• Scholarships and tuition waivers	\$5,410,000	(11.8%)

Overall, University expenditures will increase by \$340,704 from FY 2022. The increase is due primarily to an increase in mandatory costs.

In this FY 2023 budget, Cameron's administrative expenses of 10.3% of all expenses represents a decrease from FY 2022 and well below the administrative cost guideline of 13% for regional universities established by the Oklahoma State Regents for Higher Education. The university continues to be committed to maximizing the portion of the budget allocated to instruction, academic support, student services, and student scholarships and waivers while minimizing the portion of the budget used by administrative departments.

The commitment of university reserve funds in the amount of \$1,231,374 is required to meet budgeted mandatory costs increases. It is anticipated that some of the committed reserves will be recaptured by not filling or by delaying filling of certain open positions and through spending restraint by Cameron's faculty and staff. The projected, unobligated reserve balance for June 30, 2023 is \$3,379,012, or 7.4% of budgeted annual expenditures and 8.4% of budgeted annual expenditures net of tuition waivers.

AGENDA ITEM 6**ISSUE: RESTATED TUITION AND MANDATORY FEE RATES FOR ACADEMIC
YEAR 2022-2023 – CU****ACTION PROPOSED:**

President McArthur recommends the Board of Regents approve the restated undergraduate tuition and mandatory fee rates for academic year 2022-2023 per guidance of the Oklahoma State Regents of Higher Education.

BACKGROUND AND/OR RATIONALE:

70 O.S. 2001, Sections 3218.8 and 3218.9, as amended by House Bill No. 1748, authorizes the Oklahoma State Regents for Higher Education to establish resident and graduate tuition rates, nonresident tuition rates, and mandatory fees (fees for items not covered by tuition and which all students pay as a condition of enrollment at the institution). Section 3218.8 provides that the limits for undergraduate tuition and mandatory fees shall be less than 105% of the average resident tuition and mandatory fees at the university's peer institutions. Section 3218.9 provides that the limits for graduate resident and graduate non-resident tuition and mandatory fees shall be less than the average graduate resident and non-resident tuition and mandatory fees at peer institutions. Peer institutions for regional universities are determined by the State Regents and include "like-type public institutions in surrounding and other states."

In its deliberation on the establishment of resident tuition rates for undergraduate and graduate education, the State Regents shall balance the affordability of public higher education with the provision of available, diverse, and high-quality opportunities giving consideration to the level of state appropriations, the state economy, the per capita income and cost of living, the college-going and college-retention rates, and the availability of financial aid in Oklahoma. For any increase in the tuition rates, the State Regents shall demonstrate a reasonable effort to affect a proportionate increase in the availability of need-based financial aid.

Cameron University is requesting to reduce mandatory fees by \$1.00 per credit hour and increase resident tuition rates by \$9.50 per credit hour for academic year 2022-2023 for resident and nonresident students at the undergraduate and graduate levels.

UNDERGRADUATE GUARANTEED RESIDENT TUITION RATE

Beginning with the 2008-2009 academic year, House Bill 3397 (HB 3397) passed by the Oklahoma Legislature requires that a new undergraduate student be given the opportunity to choose to participate in the Guaranteed Tuition Rate Program. HB 3397 also provides that the guaranteed tuition rate shall be less than 115% of the nonguaranteed tuition rate. A first-time, full-time undergraduate student who is a resident of Oklahoma can choose to pay a guaranteed rate for the next 4 years (“the Plan”) or at an annual rate charged each year. The recommended resident undergraduate guaranteed tuition rate is \$192.00 per credit hour for students entering Fall 2022, Spring 2023 or Summer 2023. The recommended rate reflects an incremental change that follows the undergraduate tuition rate increase.

AGENDA ITEM 8**ISSUE: ON-CALL ARCHITECTS AND ENGINEERS QUARTERLY REPORT – CU****ACTION PROPOSED:**

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

Action by the Board on May 11, 2017 required reports of completed on-call engineers and architects work and cumulative total fees for the fiscal year be provided to the Board on a quarterly basis.

In June 2021, the Board of Regents authorized a group of architectural and engineering firms to provide professional on-call services. Work completed or initiated during the fourth quarter of fiscal year 2022 by on-call architectural and engineering firms is summarized below.

<u>Firm Name</u>	<u>Date Initiated</u>	<u>Work Performed</u>	<u>Fee</u>

AGENDA ITEM 9

ISSUE: ANNUAL INVESTMENT REPORT – CU

ACTION PROPOSED:

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

Section 4.1 of the Regents' Policy Manual requires that accrued interest be reported to the Board of Regents annually.

The annual report of investment activity for Cameron University is hereby submitted. Cameron University's temporary idle cash is invested in accordance with Section 4.1 of the CU/RSU Regents' Policy Manual. All available operating and capital funds are invested with the Oklahoma State Treasurer's OK Invest Program. In addition to operating and capital funds invested in the OK Invest Program, the University has a self-insured employee life insurance program in which claims over \$75,000 are ceded to an insurance company. Funds related to this life insurance program are used for payments to beneficiaries and a rate stabilization reserve. These funds are held in interest-bearing accounts by the plan's administrator.

During the fiscal year ending June 30, 2022, on an average invested balance of \$8,399,431 for all funds invested, Cameron University earned a total of \$117,053 in interest, compared to an average invested balance of \$9,128,421 with \$144,968 earned in interest in fiscal year 2021. The average annual rate of return for fiscal year 2022 was 1.39 percent.

AGENDA ITEM 10**ISSUE: QUARTERLY REPORT OF PURCHASE OBLIGATIONS – CU****ACTION PROPOSED:**

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

Section 4.10.8 of the Regents' Policy Manual requires the reporting of purchase obligations at least quarterly.

The Board of Regents' policy governing the buying and selling of goods and services states that:

- I. Purchases and/or acquisition of goods and services over \$250,000 must be submitted to the Board for prior approval; and
- II. Purchase obligations between \$50,000 and \$250,000 must be reported quarterly to the Board as an information item. Sole source procurements in this category must also be reported and identified as such.

The required reports for the quarter ended June 30, 2022 are as follows:

SUMMARY OF RESEARCH ACTIVITIES AT OU FOR JULY 2021-JUNE 2022

New awards: Total sponsored awards for the period from July 2021-June 2022 increased \$61.9M (+17.7%) from FY2021. On the Norman campus, new awards increased \$60.3M (+35%) from FY2021 primarily due to Geocarb (NASA) and Outreach projects (State of Oklahoma). On the Health Sciences campus, new awards increased \$1.6M (+.9%) from the previous year.

Expenditures: The total expenditures from July 2021-June 2022 increased \$44.4M (+13.7%) from FY2021. On the Norman campus, expenditures increased \$23.5M (+12.4%) primarily due to projects funded by the State of Oklahoma (+\$14.3M), National Science Foundation (+\$5.3M), the Office of Naval Research (+\$2.8M), and Universidad Nacional De San Agustin (UNSA) (+\$939K). On the Health Sciences campus, expenditures increased \$20.9M (+15.5%).

The following are significant grants and activities during the time from May 2022-current, organized into thematic areas of research:

Cancer

- In June 2022, Danny N. Dhanasekaran, Ph.D., Professor in the Department of Cell Biology, College of Medicine and Associate Director for Basic Research at the Stephenson Cancer Center, was awarded a new \$870,000 grant from the Department of Defense. In order to improve ovarian cancer therapy, there is a critical need to identify new therapeutic targets, specifically for recurrent chemotherapy-resistant disease. This project endeavors to better understand the cancer-associated fibroblasts (CAFs) transdifferentiation pathway, which could lead to the development of a multi-target drug strategy that can target cancer cells and CAFs in ovarian cancer.
- Desiree Azizoddin, PsyD, Assistant Professor in the Department of Family and Preventive Medicine, received a \$398,724 award in May 2022 from the National Cancer Institute, a part of the National Institutes of Health. The goal of this two-year award is to identify effective cancer pain management solutions using mobile technology to deliver pain-specific psychological treatments, including Cognitive Behavioral Therapy for pain (pain-CBT), to meet the real-life needs of advanced cancer patients, integrated with pharmacotherapy support. If proven effective, this pain-CBT and opioid management intervention has great potential to scale and make biopsychosocial pain treatment available to a population that suffers disproportionately from chronic pain and has little access to non-pharmacologic pain management treatments.
- In May 2022, Jason A. Oliver, Ph.D., Assistant Professor in the Department of Family and Preventive Medicine, received a \$488,311 award from the National Institute on Drug Abuse, a part of the National Institutes of Health. This five-year grant totaling \$2,058,450 seeks to identify improved smoking cessation interventions by better understanding β -adrenergic modulation of drug cue reactivity. This project will use neuroimaging to determine the effects of these medications on brain responses to smoking cues and

contexts in human cigarette smokers, providing vital information on the mechanisms responsible for their effect. Results from this translational project will provide valuable information on the neural underpinnings of β -adrenergic medications. It will directly inform the development of a new line of pharmacological agents for smoking cessation and provide a deeper understanding of mechanisms that can be used to help refine future intervention protocols.

- Wei-Qun Ding, Ph.D., Associate Professor in the Department of Pathology, College of Medicine, was the recipient of a new \$637,911 grant from the Department of Defense in June 2022. Most breast cancer deaths are due to metastatic disease. While current therapies can slow the progression, they unfortunately cannot cure metastatic breast cancer. The metastatic process is not fully understood, nor are there viable diagnostic biomarkers or therapeutic targets for this aspect of the disease. The purpose of this study is to further understand how exosome-associated MTA1 could contribute to breast cancer progression by regulating important signaling pathways, and thus may serve as an important therapeutic target for the management of this malignancy.

Diabetes

- In May 2022, Kevin R. Short, Ph.D., Associate Professor and CHF Choctaw Nation Endowed Chair in the Department of Pediatrics, Section of Endocrinology, College of Medicine, was the recipient of a new \$596,036 award from the National Institute of Diabetes and Digestive and Kidney Diseases, a part of the National Institutes of Health. This five-year grant, totaling \$2,296,889, aims to better understand the metabolic pathology of pediatric obesity and non-alcoholic fatty liver disease (NAFLD). NAFLD is now the most common liver disease worldwide. It affects nearly 40% of obese youth and up to 10% of the general pediatric population. By taking advantage of unique tools, this project aims to identify the sub-cellular etiology, mechanisms, and potentially modifiable pathways and biomarkers unique to children with NAFLD.

Energy

- The Nuclear Energy University Program of the DOE has awarded approximately \$3M to a research team led by Kuhika Gupta, Ph.D., associate research director of the University of Oklahoma's Institute for Public Policy Research and Analysis to develop a community-led framework to help the DOE design critical energy facilities in ways that serve the aspirations of potential host communities.

Geroscience

- In June 2022, Andriy Yabluchanskiy, M.D., Ph.D., Assistant Professor in the Department of Biochemistry and Molecular Biology, College of Medicine, received a new \$301,874 award from the American Heart Association. This three-year grant, totaling \$897,216, focuses on vascular mechanisms leading to progression of mild cognitive impairment

(MCI) to dementia after COVID-19. Preliminary studies have shown that COVID-19 infection significantly increases the conversion rate of MCI to dementia in older individuals. These studies will investigate cerebrovascularization alterations in COVID-19-induced progression of MCI to dementia. The results from this research could be critical in identifying new therapeutics to prevent cerebrovascular aging and vascular cognitive impairment and dementia.

- In May 2022, William E. Sonntag, Ph.D., Professor and Chair in the Department of Biochemistry and Molecular Biology and director of the Center for Geroscience and Healthy Brain Aging, received a five-year \$2,508,798 grant. The vast majority of health care costs in our country are generated by individuals over the age of 65 suffering from age-related diseases. The most significant risk factor for disease is aging itself, but there are few investigators trained to address this interaction. This training grant, funded by the National Institute on Aging, a part of the National Institutes of Health, will provide resources to train the next generation of researchers to address the complex causes of aging and their interactions with age-related disease.

Homelessness

- Researchers at the University of Oklahoma received a \$1M one-year grant from the Oklahoma Housing Finance Agency to assess services available across the state that help Oklahomans experiencing homelessness or housing insecurity. OHFA's contract with the OU team will provide research on where \$32M federal funds, allocated through the U.S. Department of Housing and Urban Development HOME-ARP program, have the greatest impact across the state.

Microbiology & Immunology

- In June 2022, Kevin K. Fuller, Ph.D., Assistant Professor in the Department of Microbiology and Immunology, College of Medicine, was the recipient of a five-year \$1,778,244 award from the National Eye Institute, a part of the National Institutes of Health. This study will test the feasibility of targeting the unfolded protein response (UPR) pathway, which is essential for establishing infection in fungal keratitis (FK). These findings could be utilized to identify therapeutic targets for treatment and prevention of FK, a leading cause of unilateral blindness worldwide.

OU Elevate

- The University of Oklahoma has received a \$3 million research grant from the National Science Foundation's ADVANCE program. The five-year project, "OU Elevate: Implementing Equitable Multi-Context Faculty Evaluations and Workload Distributions," was developed by an interdisciplinary team of OU faculty representing several colleges and academic units. Lori Anderson Snyder, Ph.D., a professor of

psychology in the Dodge Family College of Arts and Sciences and the lead principal investigator on the grant, will serve as the director of OU Elevate.

Predictive Intelligence for Pandemic Prevention

- The University of Oklahoma is the only institution to have two groups of researchers selected to receive nearly \$1M each from the National Science Foundation as part of its Predictive Intelligence for Pandemic Prevention initiative, which focuses on fundamental research and capabilities needed to tackle grand challenges in infectious disease pandemics through prediction and prevention. David Ebert, Ph.D., Director of the Data Institute for Societal Challenges and a professor of computer science and electrical and computer engineering in the Gallogly College of Engineering, is the principal investigator for the project, "Next Generation Surveillance Incorporating Public Health, One Health, and Data Science to Detect Emerging Pathogens of Pandemic Potential." Xiangming Xiao, Ph.D., a professor of microbiology in the Dodge Family College of Arts and Sciences, is the principal investigator for the project, "International Center for Avian Influenza Pandemic Prediction and Prevention."

Quantum Research

- One of only six projects selected for a highly competitive funding opportunity through the W. M. Keck Foundation, researchers with the Homer L. Dodge Department of Physics and Astronomy and the Center for Quantum Research and Technology received a \$1M grant for a research study that will combine theory and experimentation to develop quantum synchronization. Led by Professor Doerte Blume, Ph.D., she is providing the theoretical expertise that underpins the project's multiple experimental approaches – one using optical tweezers and one involving quantum light. She is also leading the network modeling that will attempt to bridge these experimental approaches.

AGENDA ITEM 2

ISSUE: SUBSTANTIVE PROGRAM CHANGES – NC

ACTION PROPOSED:

President Harroz recommends the Board of Regents approve the proposed changes in the Norman Campus academic programs.

BACKGROUND AND/OR RATIONALE:

The Oklahoma State Regents for Higher Education require that all substantive changes in degree programs be presented to the institution's governing board for approval before being forwarded to the State Regents for consideration. The proposed academic programs listed below have been approved by the appropriate faculty, academic units, and deans; reviewed by the Academic Programs Council and/or Graduate Council; and approved by the Senior Vice President and Provost. They are being submitted to the Board of Regents for approval prior to submission to the State Regents.

Substantive Program Changes

Existing Program Online Delivery Request

JEANNINE RAINBOLT COLLEGE OF EDUCATION

Education Administration, Doctor of Education (RPC 278, MC D317)

Reason for request:

An executive Ed.D. such as ours is designed to serve working administrators and, in fact, draws on their ongoing professional experiences to complement their academic program. As such, providing better access to rural administrators statewide through an OL EdD would enable us to grow enrollment, support educators and schools throughout the state, and deepen our program offerings. In particular, this online program would enable our students access to EACS faculty from both campuses, as well as provide opportunities to draw from the expertise of EDAH faculty on the Norman campus in electives, to supplement the existing K-12 focus.

Option Name Change

MICHAEL F. PRICE COLLEGE OF BUSINESS

Management of Information and Technology, Master of Science (RPC 341, MC M657/M658)

Option name change: Rename Management of Information Technology option/major to Management of Information and Technology.

Reason for request:

This request corrects a mistake that was made when the option was requested. The option name should be Management of Information and Technology.

Program Deletions

COLLEGE OF PROFESSIONAL AND CONTINUING STUDIES

World Cultural Studies, Bachelor of Arts (RPC 390, MC B880)

Program deletion requested effective immediately. There are no students currently enrolled. Sixteen courses will be deleted.

Reason for request:

The World Cultural Studies program was suspended in January 2019. The College of Professional Studies has determined that this program is not viable for continuation due to low student demand and shifting priorities based on the University of Oklahoma's recently adopted strategic plan.

COLLEGE OF PROFESSIONAL AND CONTINUING STUDIES/DODGE FAMILY
COLLEGE OF ARTS AND SCIENCESArchaeoastronomy and Astronomy of Culture, Graduate Certificate (RPC 053, MC G015)

Program deletion. There are five students remaining in the program. Current students will be permitted to finish the certificate as courses will still be in use by the Integrative Studies MA program.

Reason for request:

The archaeoastronomy program has been under-enrolled for several years. With the transition of PACS away from graduate program offerings, this program was deemed too much of an economic risk to warrant a transition to a new academic home.

Prevention Science, Master of Prevention Science (RPC 374, MC M793)

Program deletion. There are 16 students remaining in the program. Current students will be permitted to finish the program as courses will still be in use by the Human and Health Services Administration MA program.

Reason for request:

The MPS program has been under-enrolled for several years. With the transition of PACS away from graduate program offerings, this program was deemed too much of an economic risk to warrant a transition to a new academic home.

Program Suspension

MEWBOURNE COLLEGE OF EARTH AND ENERGY

Natural Gas Technology, Graduate Certificate (RPC 401, MC G087/G088)

Program suspension. There are no students currently enrolled in the program. Program will be reinstated or deleted in two years.

Reason for request:

With the transition in the energy industry and the successful revision of the online MS in Natural Gas Engineering and Management program, we intend to suspend the Graduate Certificate in Natural Gas Technology for minimum one year in order to plan recruitment of students and the delivery of appropriate content.

Program Requirement Changes

DODGE FAMILY COLLEGE OF ARTS AND SCIENCES

Master of Social Work/Master of Public Health (RPC 211, MC F840/Q553)

Course requirement changes. Both standalone programs have previously been updated; now the dual program will be updated. Several courses are being deleted and added to the dual program curriculum to reflect the changes already made to the standalone programs. A total of 18 credit hours will be shared (9 from each program). Total hours for the degree will change from 84 to 88.

Reason for request:

Both the Master of Social Work and Master of Public Health had curriculum changes due to accrediting body requirements. The dual Master of Social Work/Master of Public Health degree program curriculum is being updated to reflect those.

Sociology, Doctor of Philosophy (RPC 214, MC D845)

Course requirement changes. 1. Add two 1-hour courses to the list of required courses (SOC 5821 Professionalization Seminar and SOC 5831 Teaching Seminar. 2. Change the course number and course title for 2 required courses (SOC 6233 Adv Soc Statistics to SOC 5683 Categorical, Panel, and Adv Statistics; SOC 6243 Adv Quant Analysis to SOC 5483 Advanced Regression Analysis). 3. Drop the option of taking SOC 6243 or SOC 5313 or another research course. 4. Change the number of additional coursework credit hours from 30-52 to 46-68 and courses that meet the criteria as an elective credit hour. Total credit hours for the degree will not change.

Reason for request:

1. The 1-hour Professionalization Seminar (SOC 5821) prepares students for careers in academia. The course is comprised of units covering research and service. The 1-hour Teaching Seminar course (SOC 5831) prepares students to teach their own course. All PhD students teach their own section of a course beginning their second year. Both SOC 5821 and SOC 5831 are currently taught by the department. We propose to make the courses required. 2. The course numbers and titles were changed to make the numbering consistent with the sequencing of the required statistics classes. With the change, the 3 required courses would be SOC 5283, SOC 5483, and SOC 5683, which reflects the sequence of these courses. The course

titles were changed to better reflect the content of the courses. 3. We propose dropping the option of taking 1 of 3 courses (SOC 5313, SOC 6243, or another research course) for several reasons. SOC 6243 has been renamed and renumbered (see #2 above). SOC 5313 is a qualitative research course. The department does not have a qualitative researcher, the course has not been taught in many years, and the strengths of the department and the program are in quantitative analytic methods. The change clarifies and standardizes the required statistical sequence of courses. 4. We propose to clarify the number of elective credit hours and courses that meet the criteria as an elective credit hour because the current requirements are somewhat vague. The current requirements are 18 hours of social science courses and 30-52 hours of additional coursework. The proposed modification clarifies the total number of additional coursework credit hours from 30-52 to 46-68 and further specifies what courses meet the requirement for inclusion in the program of study, specifically that only 12 hours of coursework may be taken outside the department or as reading courses.

GALLOGLY COLLEGE OF ENGINEERING

Master of Civil Engineering (RPC 038, M190/M191)

Course requirement changes. The total required hours for non-thesis students will change from 32 to 30. Add new Level V areas of concentration: Geotechnical Engineering, Geotechnical Engineering, Structural Engineering, Transportation Engineering, Water Resources Engineering, and Water Resources Engineering. Degree requirement changes. Elective courses are subject to the following limitations: a.) one G3000 course outside CEES may be used toward the degree, b.) no more than 9 credits of G4000 courses from CEES – including required core courses – may count toward the degree, c.) no more than 12 credits of G4000 from all departments – including CEES – may count toward the degree, and d.) no more than 9 hours from departments outside CEES may count toward the degree. The school limits transfer credit hours from 12 to 9. Total credit hours for the degree will change from 30-32 to 30.

Reason for request:

1. The Graduate College Bulletin allows master's students to transfer no more than 12 credit hours. CEES' basis for limiting the number of transfer hours includes a.) allowing enough remaining coursework for specialization of the graduate degree and b.) ensuring the student completes most of their coursework from the degree granting institution. 2. Our students take some G3000 level math courses that help with their research. Setting a limit on G4000 courses maintains the integrity of the graduate program. 3. The minimum number of hours required for non-thesis master's programs has changed to 30 (from 32). 4. The concentration additions will bring the program in line with the current practice within the academic unit and specify the coursework required for each track/concentration.

Master of Environmental Engineering (RPC 348, M390)

Course requirement changes. The total required hours for non-thesis students will change from 32 to 30. Remove requirement for thesis students to participate in a non-credit seminar series. Add the following required courses for both thesis and non-thesis: CEES 5114 Aquatic Chemistry, CEES 5244 Physicochemical Water Treatment Processes, and CEES 5624 Biological Waste Treatment. Add CEES 5021 Technical Communications as a required course for thesis students. Non-thesis students will take 18 hours of electives from a list of MSCE electives maintained by the department and approved by the Graduate College. Thesis students will take 11-12 hours of electives from a list of MSCE electives maintained by the department and approved by the Graduate College. Degree requirement changes. The school limits transfer credit hours from 12 to 9. Elective courses are subject to the following limitations: a.) one G3000 course outside CEES may be used toward the degree, b.) no more than 9 credits of G4000

courses from CEES – including required core courses – may count toward the degree, c.) no more than 12 credits of G4000 from all departments – including CEES – may count toward the degree, and d.) no more than 9 hours from departments outside CEES may count toward the degree. Total credit hours for the degree will change from 30-32 to 30.

Reason for request:

1. The Graduate College Bulletin allows master's students to transfer no more than 12 credit hours. CEES' basis for limiting the number of transfer hours includes a.) allowing enough remaining coursework for specialization of the graduate degree and b.) ensuring the student completes most of their coursework from the degree granting institution. 2. Our students take some G3000 level math courses that help with their research. Setting a limit on G4000 courses maintains the integrity of the graduate program. 3. A graduate level seminar series is no longer offered. 4. The minimum number of hours required for non-thesis master's programs has changed to 30 (from 32).

Master of Environmental Science, Environmental Science (RPC 076, M405)

Course requirement changes. The total required hours for non-thesis students will change from 32 to 30. Add the following requirement for both thesis and non-thesis students – "Select 3 of the following courses: CEES 5114 Aquatic Chemistry, CEES 5324 Environmental Biology and Ecology, CEES 5843 Hydrology, CEES 5853 Groundwater Hydrology." Add CEES 5021 Technical Communications as a required course for thesis students only. Thesis students will take 12-14 hours of elective coursework from a list of MES electives maintained by the department and approved by the Graduate College. Non-thesis students will take 19-20 hours of elective coursework from a list of MES electives maintained by the department and approved by the Graduate College. Degree requirement changes. The school limits transfer credit hours from 12 to 9. Elective courses are subject to the following limitations: a.) one G3000 course outside CEES may be used toward the degree, b.) no more than 9 credits of G4000 courses from CEES – including required core courses – may count toward the degree, c.) no more than 12 credits of G4000 from all departments – including CEES – may count toward the degree, and d.) no more than 9 hours from departments outside CEES may count toward the degree. Total credit hours for the degree will change from 30-32 to 30.

Reason for request:

1. The minimum number of hours required for non-thesis master's programs has changed to 30 (from 32). 2. We are formalizing these degree requirements, as they are consistent with the way students are currently being advised in the program. These changes allow for more concrete degree requirements. 3. The Graduate College Bulletin allows master's students to transfer no more than 12 credit hours. CEES' basis for limiting the number of transfer hours includes a.) allowing enough remaining coursework for specialization of the graduate degree and b.) ensuring the student completes most of their coursework from the degree granting institution. 4. Our students take some G3000 level math courses that help with their research. Setting a limit on G4000 courses maintains the integrity of the graduate program.

Architectural Engineering, Bachelor of Science (RPC 357, MC B035)

Course requirement changes. Replace CEES 1112 Intro to CEES with ENGR 1411 Freshman Engineering Experience (Engineering transfer students may take ENGR 3511 Engineering Orientation for Transfer Students in place of ENGR 1411) and add CEES 1111 Exploring CEES. Total credit hours for the degree will not change.

Reason for request:

The Gallogly College of Engineering is restructuring the freshman year to improve retention, which includes a college-wide introductory course (ENGR 1411) that all majors are expected to take in the Fall. This will replace the currently required CEES 1112 course for CEES students. In place of CEES 1112, we are requesting CEES 1111 be offered in the Spring, and it will be a discipline-specific follow on to the ENGR 1411 course. CEES 1111 will contain some of the elements from the CEES 1112 course but adjusted for the reduced number of credit hours.

Civil Engineering, Bachelor of Science (RPC 037, MC B190)

Course requirement changes. Replace CEES 1112 Intro to CEES with ENGR 1411 Freshman Engineering Experience (Engineering transfer students may take ENGR 3511 Engineering Orientation for Transfer Students in place of ENGR 1411) and add CEES 1111 Exploring CEES. Environmental Engineering, Bachelor of Science (RPC 331, MC B390).

Course requirement changes. Replace CEES 1112 Intro to CEES with ENGR 1411 Freshman Engineering Experience (Engineering transfer students may take ENGR 3511 Engineering Orientation for Transfer Students in place of ENGR 1411) and add CEES 1111 Exploring CEES. GAYLORD COLLEGE OF JOURNALISM AND MASS COMMUNICATION

Strategic Communication and Digital Strategy-OL, Journalism & Mass Communication, Master of Arts (RPC 138, MC M859)

Course requirement changes. The curriculum will change from 6 credit hours of core courses and 27 hours of electives to 11 specific, required courses, offered in lockstep scheduling. There will be no electives. Degree program requirement change. The program will be changing to a coursework-only model. No non-thesis exam or culminating experience will be required for graduation. Total credit hours for the degree will not change.

Reason for request:

The program design fits with our target audience for the degree: early-to-mid career strategic communication professionals. This target audience was identified through Gaylord College's proprietary research, a spring 2020 survey of strategic communication professionals across the U.S. Digital media are relatively new and still developing. Our research revealed that those most likely to be attracted to an online MA sought to develop digital knowledge and professional skills to advance their careers. Research-based work for strategic communication campaigns is already a large part of professional strategic communication work. A thesis or project requirement would mandate students to program requirements that are already a routine part of their professional work. Further, an all-coursework program provides Gaylord a competitive recruitment advantage. The all-coursework program differentiates our program from our competitors, better meets the needs of our target audience and is a potent recruiting tool.

COLLEGE OF PROFESSIONAL AND CONTINUING STUDIES

Criminal Justice, Bachelor of Science (RPC 365, MC B647).

Course requirement changes. Amend our degree requirements to remove all concentrations (9 hours) which will be replaced with free electives. Delete the following concentrations: Criminal Investigation & Intelligence Analysis, Criminal Justice Self-Design, Homeland Security, Organizational Leadership, and Restorative Justice. Total hours in the major requirements will change from 39 to 30. Total credit hours for the degree will not change.

Reason for request:

We seek to simplify and streamline options for students.

Organizational Leadership, Bachelor of Arts (RPC 375, MC B755). Course requirement changes. Total credit hours for the degree will not change.

Program Addition

MEWBOURNE COLLEGE OF EARTH AND ENERGY

GeoEnergy Engineering, Bachelor of Science (RPC, MC)

Request for new Bachelor of Science with a Level III program title of GeoEnergy Engineering. The program requires a total of 129 hours with 55 hours of major requirements, 30 hours of major support, 40 hours of general education requirements and 4 hours of college requirements. A minimum grade of C is required for each course in the curriculum and each prerequisite course. The minimum overall, major, and curriculum GPA required is 2.50.

Reason for request:

Much has changed in the energy industry in the past decade. A GeoEnergy Engineering Bachelor of Science degree will support graduate preparation for the energy transition. The aim is for the program to meet the demand for education in emerging energy fields such as geothermal energy, hydrogen energy, renewable energy, energy storage and CO2 capture and sequestration. With the current energy transition globally, this department can strategically address the changes in the energy industry, prepare graduates for the transitional energy initiatives, and this degree will be imperative to future student enrollment growth within MPGE. The new courses added will enhance the degree program to relevant content in line with the transitioning needs in the industry.

AGENDA ITEM 3**ISSUE: PROGRAM MODIFICATION – DOCTOR OF PHILOSOPHY IN
PHARMACEUTICAL SCIENCES – HSC****ACTION PROPOSED:**

President Harroz recommends the Board of Regents approve a modification to the Doctor of Philosophy in Pharmaceutical Sciences Program at the Graduate College to add six additional course options to fulfill the requirements of BSE 5643 – Regression Analysis and BSE 5653 – Non-Parametric Methods. Course options include any two of the following:

- (1) BSE 6563 – Longitudinal Data Analysis.
- (2) BSE 5663 – Analysis of Frequency Data.
- (3) BSE 5763 – Applied Bayesian Analysis.
- (4) BSE 6643 – Survival Data Analysis.
- (5) BSE 5283 – GIS in Health, and
- (6) BSE 6663 – Analysis of Multivariate Data.

BACKGROUND AND/OR RATIONALE:

Oklahoma State Regents for Higher Education Policy 3.4.3 requires that instructional programs obtain approval for modification to existing programs. The Department of Graduate Pharmaceutical Sciences has two specializations under the PhD program in Pharmaceutical Sciences – Basic Pharmaceutical Sciences and Social/Administrative Sciences. The approved curriculum for the Social and Administrative Sciences (SAS) track currently includes two advanced courses in statistics. Due to changes in the content and scheduling of these courses in recent years, students in the SAS track have resorted to taking other advanced biostatistics courses which better fit their dissertation research focus. The addition of the six additional options to fulfill the current requirements will strengthen students' academic development by increasing course options that are more specific to their research projects.

AGENDA ITEM 4

ISSUE: PROGRAM MODIFICATION – MASTER OF SCIENCE IN NUTRITIONAL SCIENCES – HSC

ACTION PROPOSED:

President Harroz recommends the Board of Regents approve a modification to the Master of Science in Nutritional Sciences Program at the Graduate College to add one additional course option: NS 5103 – Master’s Non-Thesis Project (3 credit hours).

BACKGROUND AND/OR RATIONALE:

Oklahoma State Regents for Higher Education Policy 3.4.3 requires that instructional programs obtain approval for modification to existing programs. The Graduate College seeks to modify their MS in Nutritional Sciences degree program so that dually enrolled Master of Arts in Nutritional Science professional students from the College of Allied Health may elect to complete a thesis or non-thesis option. The non-thesis option is currently approved for Master of Science students who are NOT dually enrolled. This modification would allow professional students who seek to earn a graduate degree to complete a graduate degree without a thesis requirement. Allowing professional students a thesis or non-thesis track option is expected to increase enrollment in the graduate degree and bring the dual program into alignment with the currently approved Master of Science degree.

AGENDA ITEM 5**ISSUE: BASIC SCIENCES EDUCATION BUILDING ARCHITECTURAL
CONSULTANT- HSC****ACTION PROPOSED:**

President Harroz recommends the Board of Regents:

- I. Rank in the order presented below architectural firms under consideration to provide professional services for renovation of the 3rd floor lab-Basic Sciences Education Building;
- II. Authorize the University administration to negotiate the terms of an agreement and a fee, starting with the highest-ranked firm; and
- III. Authorize the President or his designee to execute the consultant contract.

BACKGROUND AND/OR RATIONALE:

First approved at the May 2020 meeting as an addition to the Campus Master Plan of Capital Improvements, the Basic Sciences Education Building project will renovate approximately 5,285 square feet of laboratory space on the 3rd floor to provide flexible space to house four diabetes center investigators, with room enough for up to four more. The labs will be remodeled to an open modular configuration which, along with reconfiguring offices, storage rooms and procedure space will add approximately 767 square feet of laboratory space. Equipment will include new cabinetry, gas lines, biosafety cabinets, bench/desk reconfiguration, and walls with outlets suitable for 220V freezers and centrifuges. The renovation of this space will allow the University to attract and retain faculty, post-docs, and students expecting a modern up-to-date, biomedical research facility. The estimated total project cost is \$2,930,000.

At this time, an architectural consultant is needed to provide planning and professional services for renovations of the Basic Sciences Education Building 3rd Floor Lab project. A request for qualifications was sent to the architectural firms that are currently registered with the Construction and Properties Department/Division of Capital Assets Management of the State Office of Management and Enterprise Service, and a committee was formed to evaluate the responses received from eleven firms. The committee was composed of the following:

Voting:

Brent Everett, Assistant Director, Architectural & Engineering Services
Earl Chain, Project Manager, Architectural & Engineering Services, Chair
Dustin Bozarth, Assistant Vice President, Facilities Management
Jimmy Eubanks, Admin & Operations Executive Director, Harold Hamm Diabetes Center
Darrin Akins, Associate Vice President for Health Sciences Research

Proposals to provide the needed professional services for the projects were received from 11 architectural firms. Four firms were selected by the interview committee for further evaluation. A detailed review and interview was conducted with each of the four firms, and the firms were rated from highest to lowest as follows.

1. Beck Design, Oklahoma City, OK
2. JHBR Architecture, Oklahoma City, OK
3. Miles Associates, Oklahoma City, OK
4. Rees, Oklahoma City, OK

**BASIC SCIENCES EDUCATION BUILDING 3RD FLOOR LAB

Funds to cover the costs associated with preliminary professional services have been identified, are available and budgeted from department and University funds.

AGENDA ITEM 6**ISSUE: 755 UNIVERSITY RESEARCH PARK 3RD FLOOR & BASIC SCIENCES EDUCATION BUILDING 3RD FLOOR LAB RENOVATIONS – HSC****ACTION PROPOSED:**

President Harroz recommends the Board of Regents:

- I. Rank in the order presented below construction management firms under consideration to provide construction management services required for the 755 Research Park 3rd Floor & BSEB 3rd Floor Lab Renovations.
- II. Authorize the University administration to negotiate the terms of an agreement and a fee, starting with the highest-ranked firm; and
- III. Authorize the President or his designee to execute the construction management contract.

BACKGROUND AND/OR RATIONALE:

First approved at the May 2020 meeting as an addition to the Campus Master Plan of Capital Improvements, the Basic Sciences Education Building project will renovate approximately 5,285 square feet of laboratory space on the 3rd floor to provide flexible space to house four diabetes center investigators, with room enough for up to four more. Equipment will include new cabinetry, gas lines, biosafety cabinets, bench/desk reconfiguration, and walls with outlets suitable for 220V freezers and centrifuges. The renovation of this space will allow the University to attract and retain faculty, post-docs, and students expecting a modern up-to-date, biomedical research facility. The estimated total project cost is \$2,930,000.

The University Research Park (URP) Building 755 project involves renovating approximately 20,000 square feet of space on the 3rd floor for research laboratories and offices. The project will include constructing open lab spaces with wet and dry benches and fume hoods, central rooms for tissue culture/microscopy, a cold room, and common areas for autoclaves, dishwashers, and freezers. The new space will help with the critical growth needs in infectious diseases and immunology, Children's Medical Research, Neurosciences and Cardiovascular Diseases. Renovation of the 3rd floor of URP 755 would provide research space for between 10-15 new researchers depending on their funding and research space needs. The estimated total project cost is \$10,000,000.

At this time, a construction management firm is needed to assist the University for the renovations of the 755 URP 3rd Floor & BSEB 3rd Floor Lab projects. A request for qualifications was sent to the construction management firms that are currently registered with the Construction and Properties Department/Division of Capital Assets Management of the State Office of Management and Enterprise Service, and a committee was formed to evaluate the responses received from nine firms.

The interview committee was composed of the following:

Voting:

Brent Everett, Assistant Director, Architectural & Engineering Services

Earl Chain, Senior Construction Project Manager, Architectural & Engineering Services, Chair

Dustin Bozarth, Assistant Vice President, Facilities Management

Jimmy Eubanks, Admin & Operations Executive Director, Harold Hamm Diabetes Center

Proposals to provide the needed construction management services for the project were received from nine construction management firms. Four firms were selected by the interview committee for further evaluation. A detailed review and interview was conducted with three of the four firms. One firm, Miller-Tippens Construction, was unable to attend and was not rated. The three interviewed firms were rated from highest to lowest as follows.

1. Lippert Bros., Inc., Oklahoma City, OK
2. Timberlake Construction, Oklahoma City, OK
3. Smith & Pickel, Oklahoma City, OK

AGENDA ITEM 7**ISSUE: UTILITY PLANT EXPANSION – HSC****ACTION PROPOSED:**

President Harroz recommends the Board of Regents:

- I. Rank in the order presented below construction management firms under consideration to provide construction management services required for the Utility Plant Expansion project;
- II. Authorize the University administration to negotiate the terms of an agreement and a fee with the highest-ranked firm; and
- III. Authorize the President or his designee to execute the construction management contract.

BACKGROUND AND/OR RATIONALE:

First approved at the May 2021 meeting as an addition to the Campus Master Plan of Capital Improvements, the Utility Plant Expansion includes replacement of existing capital equipment and a new chilled water plant located south of existing Chilled Water Plant 2. The new plant includes new chillers with backup power generation, cooling towers and associated pumps and other equipment required for a complete and functioning facility. The project will also upgrade and/or replace existing boilers and chillers in the original plant that are beyond their useful life as well as potentially adding backup power for one chiller. It is expected that the project will be completed in phases beginning with the highest priority improvements. The expansion and upgrades of the Steam & Chilled Water Plant is necessary to accommodate the growth of the OU Health Sciences Center and to supply uninterrupted service to the campus.

At this time, a construction management firm is needed to assist the University for the construction of the Utility Plant Expansion. A request for qualifications was sent to the construction management firms that are currently registered with the Construction and Properties Department/Division of Capital Assets Management of the State Office of Management and Enterprise Service, and a committee was formed to evaluate the responses received from nine firms.

The interview committee was composed of the following:

Voting:

Brent Everett, Assistant Director, Architectural & Engineering Services
Earl Chain, Project Manager, Architectural & Engineering Services, Chair
Dustin Bozarth, Assistant Vice President, Facilities Management
Timothy Hoehman, Assistant Director Facilities Management-Environmental Systems

Non-Voting:

Paul Manzelli, Associate Vice President for Admin and Finance
Casey West, Director of Project Development, Frankfurt Short Bruza

Proposals to provide the needed construction management services for the projects were received from three construction management firms. All firms were selected by the interview committee for further evaluation. A detailed review and interview was conducted with each of the three firms, and the firms were rated from highest to lowest as follows:

1. Flintco, LLC, Oklahoma City, OK
2. GE Johnson Construction Company, Oklahoma City, OK
3. Smith & Pickel, Oklahoma City, OK

AGENDA ITEM 8

**ISSUE: REPLACEMENT CHILLERS FOR UNIVERSITY RESEARCH PARK
BUILDING 800 – OUHSC**

ACTION PROPOSED:

President Harroz recommends the Board of Regents approve the purchase of two new 300-ton roof top chillers for Building 800 at the University Research Park in Oklahoma City for \$1,095,000 through one of the OMNIA Co-op contracts.

BACKGROUND AND/OR RATIONALE:

The existing roof top chillers for Building 800 at the University Research Park in Oklahoma City have reached their end of life at 26 years. The existing coolers run on R-22 refrigerant which is obsolete and no longer being made which has resulted in the loss of ice chiller capabilities for the past eight years. The building is currently being supported by a mobile cooling system at \$25,000 per month. The mobile cooling system struggled with maintaining habitable working conditions these past few months with the record high temps.

This purchase will replace a 270-ton and a 300-ton rooftop chiller with two 300-ton air cooled screw chillers at a price of \$1,095,000 through one of the Co-op contracts through OMNIA. The new chillers will use the current R513-A refrigerant and will restore the ice chiller capability. One chiller will be provided with ice making capabilities for use with the existing ice tank infrastructure and the other chiller will be provided with standard operations. The current lead time of the new chillers is 33 weeks, approximately eight months. The new chillers need to be operational before the Summer of 2023, which is approximately ten months away.

This is a Turn Key project with TRANE removing the old chillers from the roof, re-piping the existing piping and installing the new chillers; Oklahoma Roofing removing the current concrete curbs, removing the first layer of the roof to make it level, and adding composite curbs for the new chillers and flashing them in and Shawver and Sons Electric upgrading the electrical panel for the new chillers.

After the warranty period, the chillers will be added to the existing maintenance agreement with TRANE, who currently maintains all the chillers at the University Research Park.

Funding for this project and annual maintenance has been identified in full through University Research Park SUAUX Funds.

AGENDA ITEM 9**ISSUE: RATIFICATION – RESTATEMENT OF RETIREMENT PLAN DOCUMENTS AND ADOPTION OF COMPLIANCE AMENDMENTS TO RETIREMENT PLAN DOCUMENTS – ALL****ACTION PROPOSED:**

President Harroz recommends the Board of Regents ratify the interim approval given per the Board Bylaws for the amendment and restatement of the plan documents for the University of Oklahoma tax qualified defined contribution retirement plans and for the approval of the adoption of SECURE Act amendments to the plan documents for University of Oklahoma qualified retirement plans.

BACKGROUND AND/OR RATIONALE:

The University sponsors several tax-qualified defined contribution retirement plans for the benefit of University employees. Federal tax law and regulations require that in order for the retirement plans to maintain their tax-qualified status the plan documents must, at least every six years, be restated to incorporate any amendments to the plans that were adopted during the interim period and any applicable statutory or regulatory changes. Under applicable Internal Revenue Service procedures, the University's defined contribution retirement plans were required to be amended and restated by July 31, 2022. Outside legal counsel prepared drafts of the required restated plan documents for this purpose. The amendments and restatements to the retirement plans will not result in additional costs to the University.

In addition, the University's defined contribution and defined benefit plans amendments were required to incorporate the applicable provisions of the Setting Every Community Up for Retirement Enhancement Act of 2019 ("SECURE Act"). Outside legal counsel prepared drafts of the required SECURE Act amendments for this purpose. The SECURE Act amendments are compliance amendments for the purpose of maintaining the tax qualified status of the retirement plans and will not result in additional costs to the University.

It was recommended that the amended and restated qualified retirement plan documents and the SECURE Act amendments be approved and adopted, and that the President and his designees be authorized to take any and all actions he deems necessary to adopt and implement the amended and restated retirement plan documents and SECURE Act amendments in accordance with IRS requirements. Interim approval was given by the Chair, Vice Chair and Administration and Operations Committee Chair.

AGENDA ITEM 10

ISSUE: OG&E EASEMENT – HSC

ACTION PROPOSED:

President Harroz recommends the Board of Regents:

- I. Approve the grant of a utility easement to Oklahoma Gas & Electric Company to provide electrical service for the Hope Lodge project; and
- II. Authorize the President or his designee to execute the Easement documents in coordination with OU Legal.

BACKGROUND AND/OR RATIONALE:

It is being requested that the Board of Regents approve the grant of a utility easement to the Oklahoma Gas & Electric Company for the installation of below ground power cables and other fixtures to provide electrical service to the Hope Lodge project located on University property leased by the American Cancer Society, Inc. sited on the Southeast corner of NE 7th Street and N. Phillips Avenue in Oklahoma City, furthermore described as follows:

A 10-foot Oklahoma Gas & Electric (OG&E) Company utility easement, 5 feet each side of a centerline located in a portion of Block Twenty-seven (27) of THE MEDICAL CENTER REPLAT, AREA “B”, an addition to the City of Oklahoma City, Oklahoma County, Oklahoma according to the recorded plat thereof, and being more particularly described as follows:

Commencing at the Northeast corner of said Block 27:

Thence S 89°58'43" W along the North line of said Block 27 a distance of 327.64 feet to the Point of Beginning;
Thence S 62°6'03" E a distance of 13.62 feet;
Thence S 00°02'44" E a distance of 207.25 feet;

EASEMENT

KNOW ALL MEN BY THESE PRESENTS: THAT **THE BOARD OF REGENTS OF THE UNIVERSITY OF OKLAHOMA, a constitutional entity of the State of Oklahoma**, Grantor, in consideration of the sum of Ten or more dollars in hand paid, the receipt of which is hereby acknowledged, and other good and valuable consideration, does hereby grant and warrant unto **OKLAHOMA GAS AND ELECTRIC COMPANY**, an Oklahoma corporation, Grantee, its successors and assigns, the right, privilege and authority to enter upon and install, erect, construct, operate, maintain, and reconstruct underground and/or above ground a system of poles, anchors, guy wires, conduits, wires, cables, vaults, junction boxes, switches, fuses, transformers, service connection boxes and other fixtures for the transmission and distribution of electrical current and communication messages, including the right of ingress and egress to and from said system across adjoining lands of Grantor, together with the authority to cut down, control the growth of, or trim and keep trimmed any trees that may in the judgment of the Grantee interfere with or endanger said line or its maintenance and operation.

The real property covered by this easement is situated in **OKLAHOMA** County, State of Oklahoma, and is described as follows:

See EXHIBIT "A" attached hereto and made a part hereof.

Grantor further agrees that no building or other structure shall ever be erected nor shall any excavation or other removal of soil, so as to change the grade of terrain, be accomplished by Grantor, its heirs or assigns, within the above described easement area unless the written consent of the Grantee is first obtained. Grantor further acknowledges the requirements of 63 Oklahoma Statutes (2011) Section 142.1, et. seq. (One-call statute).

Grantor hereby consents to permit Grantee to trim and keep trimmed any trees and foliage on Grantor's property immediately adjacent to the easement granted herein, and Grantee shall have the right to enter upon Grantor's property for this purpose.

The rights and privileges above granted to continue so long as same are used or needed for the transmission and distribution of electric current or communication messages; but should the Grantee remove its property from the premises and abandon the right of way herein granted, then the rights granted in this easement shall terminate.

AGENDA ITEM 11

ISSUE: REQUEST TO NAME THE CENTER FOR RUSSIAN STUDIES

ACTION PROPOSED:

President Harroz recommends the Board of Regents approve the naming of the Center for Russian Studies in the Dodge Family College of Arts and Sciences in recognition of a generous gift commitment to the University of Oklahoma Foundation.

BACKGROUND AND/OR RATIONALE:

The University administration desires that the new name of the Center for Russian Studies remain confidential until the announcement is made. The cooperation of the press is requested in maintaining this confidentiality.

AGENDA ITEM 12

ISSUE: MERGING NORMAN AND TULSA GRADUATE COLLEGES – NC

ACTION PROPOSED:

President Harroz recommends the Board of Regents approve the proposed realignment of the two Graduate Colleges for Norman and Tulsa campuses into one Graduate College with the new entity to be called “OU Graduate College.” This change will have no impact on the OU Health Sciences Center Graduate College.

BACKGROUND AND/OR RATIONALE:

Although Norman-based graduate programs have been offered in Tulsa since 1957, the Tulsa Graduate Office was established in 1996 so administrative issues regarding graduate education could be handled locally. What began as the Tulsa Graduate Office became the Tulsa Graduate College in 1998.

This proposed new alignment seeks to consolidate the leadership of graduate education under the Dean of the Graduate College in Norman. The current Dean of the Graduate College in Tulsa will step out of the dean’s role and continue to serve as Interim President of OU-Tulsa. As a result of this transition, there will be no loss or reduction in staff in Tulsa and no impact on the graduate students or graduate faculty, as the Graduate College in Tulsa already follows the policies, procedures, and deadlines of the Norman campus. The Associate Dean of the Graduate College in Tulsa will remain in Tulsa to provide local leadership and support. Graduation ceremonies will continue to be held in Norman and Tulsa, in line with existing traditions.

The Senior Vice President and Provost (Norman) discussed merging the two Graduate Colleges with both Graduate College Deans. Following their input and support, they held additional discussions with college and campus leadership teams to address the implications of this change in the academic structure. The group unanimously supported the realignment. The Chair of Faculty Senate has also endorsed the realignment.

The Tulsa Graduate College leadership has served our students and the University with dedication and helped shape graduate education at OU to offer the highest levels of academic excellence and a meaningful graduate student experience. The realignment seeks to continue in this tradition.

The “Lead On, University” Strategic Plan outlines several strategies related to graduate education at OU, and this merger supports these ambitious goals.

Once approved by The University of Oklahoma Board of Regents, the proposal will be forwarded to the State Regents for Higher Education for final approval.

AGENDA ITEM 13**ISSUE: UNIVERSITY COLLEGE DEAN SEARCH COMMITTEE – NC**

In accordance with Board of Regents' policy 1.4, President Harroz recommends the Board of Regents approve the appointment of the listed members to the University College Dean Search Committee.

BACKGROUND AND/OR RATIONALE:

After serving as the Dean of University College for 10 years, Dr. Nicole Campbell has stepped down to rejoin the faculty in the Department of Psychology, effective August 15. Provost Wright has asked Senior Vice Provost Mark Morvant to serve as the interim dean until a new permanent dean is appointed.

To begin a search for the next Dean of University College, the President recommends the appointment of a search committee as outlined below.

Board of Regents policy 1.4 regarding search committees for Deans provides that the committee shall have faculty, student, and staff representation and outlines the procedures by which nominations are made and search composition is determined.

From among those nominated, the President recommends those listed below to serve on the search committee:

Chair	Denise Stephens, Dean, University Libraries
University College	Zeynep Aydogdu, Assistant Professor, Women's and Gender Studies and University College - First Year Experience
	Adrienne Carter-Sowell, Director, University College - Gateway to Belonging program
	Lillian Miller, Assistant Dean, University College
	Paul Young, Commanding Officer, Navy ROTC
Faculty-at-Large	Shelly Grunsted, Associate Professor, Management and International Business
	Matthew Reyes, Associate Professor, Division of Construction Science
Faculty Senate Representative	Ryan Bisel, Professor, Department of Communication
Staff Senate Representative	Joel Wilson, Associate Director, Admissions and Recruitment
SGA Student Representative	Denzel Akuffo, Vice President, Student Government Association

AGENDA ITEM 14**ISSUE: JACOBSON HALL CONSTRUCTION MANAGEMENT – NC****ACTION PROPOSED:**

President Harroz recommends the Board of Regents:

- I. Rank in the order presented below construction management firms under consideration to provide construction management services required for the Jacobson Hall;
- II. Authorize the University administration to negotiate the terms of an agreement and a fee, starting with the highest-ranked firm; and
- III. Authorize the President or his designee to execute the construction management contract.

BACKGROUND AND/OR RATIONALE:

At the May 2022 meeting, the Jacobson Hall project was approved by the Board of Regents as a part of the comprehensive Campus Master Plan of Capital Improvement Projects for the Norman Campus.

First occupied in 1919 as the University's second library building, this historic structure currently houses the OU Visitor's Center and occupies a prominent position as the "Front Door of the University". In an effort to meet the growing demand for Admissions & Recruitment, a renovation and addition to the OU Visitor's Center at Jacobson Hall is needed. The project will provide needed updates to the life safety and HVAC system, renovate existing and add new restrooms, improve accessibility throughout the building, renovate existing meeting rooms and add additional meeting rooms to better serve prospective students. Work to repair and maintain the building's exterior will include masonry repair, new windows, and other remedial work identified during assessment and design. The estimated total project cost is \$15,000,000 with funding from University and donor sources.

At this time, a construction management firm is needed to assist the University for the renovation of Jacobson Hall. A request for qualifications was sent to the construction management firms that are currently registered with the Construction and Properties Department/Division of Capital Assets Management of the State Office of Management and Enterprise Service, and a committee was formed to evaluate the responses received from nine firms.

The interview committee was composed of the following:

Voting:

Alan Moring, Sr. Construction Project Manager, Architectural & Engineering Services, Chair

Brent Everett, Assistant Director, Architectural & Engineering Services

Brian Holderread, Vice President of Campus Operations

Kyle McGehee, Director of Project Management & Engineering, Facilities Management

Jeff Blahnik, Vice President for Enrollment Management, Academic Records

Proposals to provide the needed construction management services for the project were received from nine construction management firms. Four firms were selected by the interview committee for further evaluation. A detailed review and interview was conducted with each of the four firms, and the firms were rated from highest to lowest as follows.

1. Lingo Construction Services, Oklahoma City, OK
2. Timberlake Construction, Oklahoma City, OK

AGENDA ITEM 15

ISSUE: RADAR INNOVATIONS ASSEMBLY BUILDING 2 - NC

ACTION PROPOSED:

President Harroz recommends the Board of Regents:

- I. Authorize the University administration to contract and make payments not to exceed the cumulative amount of \$6,250,000 for the construction of the Radar Innovations Assembly Building 2; and
- II. Approve a revised total project budget of \$8,000,000 for the construction of the Radar Innovations Assembly Building 2.

BACKGROUND AND/OR RATIONALE:

At the March 2022 meeting, the Radar Innovations Assembly Building 2 project was approved by the Board of Regents as an addition to the Campus Master Plan of Capital Improvement Projects for the Norman Campus. The Board also ranked Miles Architecture first among architectural firms considered to provide design services for the project at the March 2022 meeting. At the June 2022 meeting, the Board ranked Smith & Pickel highest among construction managers considered to provide professional services for the project.

It is proposed the Board approve a Construction Cost Limit of \$6,250,000 for the cost of construction. This price includes cost of construction work, cost of construction managers direct project management, fees, bonds, insurance and owner contingency.

Due to labor and material cost increases, and an increase in the size and scope of the project, it is proposed that the board authorize a revised project budget of \$8,000,000.

Funding for the project has been identified and is available from State and University funds.

AGENDA ITEM 16**ISSUE: 2023 HEALTH PLAN RATES – ALL****ACTION PROPOSED:**

President Harroz recommends the Board of Regents approve the following plan year 2023 benefit changes and premium rate strategy for active employees and pre-65 and post-65 retirees:

- I. Implement employee contribution rates as described in the attachment; and
- II. Implement retiree Medicare-eligible medical and pharmacy plan premium increase as described.

BACKGROUND AND/OR RATIONALE:

The University sponsors various health and welfare benefit programs for the benefit of its eligible employees and non-Medicare and Medicare-eligible retirees. For plan year 2023 there will be no changes to health vendors and premium rates for dental, vision, life, and disability will remain the same. Life and disability rates are based on a combination of age and/or salary and could increase for those experiencing a birthday or a change in salary. Renewal for medical premium rates are still in progress and are expected in late September 2022

Premium rates for Medicare-eligible retirees on the OU UnitedHealthcare Medicare Advantage Prescription Drug Plan will remain the same. The OU UnitedHealthcare Medicare Senior Supplement and stand-alone Medicare Part D Drug Plan will experience an increase of 3%.

The University will not make any plan design changes to any of the Medicare plans. However, the Center for Medicare and Medicaid Services (CMS) is increasing the limit from \$7,500 to \$8,300 for Maximum Out-of-Pocket (MOOP). Beginning in 2023, per CMS guidelines, MOOP will be broken out into three categories modified from two. CMS will also increase the cost sharing thresholds or amounts members must pay for Part D. Additional benefits will also be added for the Medicare Advantage Prescription Drug Plan and Senior Supplement and include the following:

- HouseCalls (Medicare Advantage)
 - UnitedHealthcare HouseCalls service gives eligible members a yearly visit with a healthcare practitioner in the privacy of their own home.
- Renew Active (Medicare Advantage and Senior Supplement)
 - UnitedHealthcare fitness benefit provides a free gym membership at a participating Renew Active location including access to many premium gyms and fitness locations — the largest of all Medicare fitness programs. This plan replaces SilverSneakers.
- Member Rewards and Incentives (Medicare Advantage)
 - UnitedHealthcare Renew Rewards program motivates members to take action by rewarding the achievement of certain milestone activities.

- Rally Coach (Medicare Advantage)
 - As part of Rally Coach members have access to three unique programs that provide varying levels of online coaching and digital engagement designed to promote health and wellness; Wellness Coaching, Quit For Life® and Real Appeal®, including UnitedHealthcare's CDC-accredited diabetes prevention program.
- UnitedHealthcare Hearing Program (Medicare Advantage)
 - Through UnitedHealthcare Hearing, members have access to a full range of hearing health services and to more than 2,000 hearing aid models and styles from the industry's top brands, including premium name-brands and UnitedHealthcare's innovative private-labeled brand.

AGENDA ITEM 17

ISSUE: OU HEALTH PAID TIME OFF ACCRUAL – HSC

ACTION PROPOSED:

President Harroz recommends the Board of Regents amend the University's Paid Time Off policy Program to specify those members who provide professional services to the University of Oklahoma Health Sciences Center to align with the paid time off program offered to those members who become dually employed by OU and Oklahoma University Health Partners, Inc.

BACKGROUND AND/OR RATIONALE:

In December 2021, the OU Board of Regents approved the amendment to the University's Paid Time Off policy solely with regards to those faculty members who provide professional services to the University of Oklahoma Health Sciences Center and chose to remain employed by OU rather than becoming dually employed. This amendment was made to align with the paid time off (PTO) program offered to those faculty members who became dually employed by OU and Oklahoma University Health Partners, Inc. This policy change was put into effect January 2022; however, due to the agenda item specifically naming faculty, other clinical roles who were allowed to remain employed solely with the University of Oklahoma Health Sciences Center did not have a change to their PTO accrual.

The University wishes to amend the above-stated Paid Time Off policy once again. To align with the previously affected employee groups, the Policy will be broadened to include those members who provide professional services to the Health Sciences Center, amending their annual PTO accrual of 28 days and 12 holidays, for a total of 40 paid days off.

In the future, if the University adds a new holiday, the biweekly PTO accrual will be adjusted so that the total paid days off still equals 40 days per calendar year. This adjustment will be completed in the most effective way possible. Advance notice will be given to any affected employee(s).

AGENDA ITEM 18**ISSUE: AMENDMENT TO DEPENDENT CHILD TUITION WAIVER PROGRAM – HSC****ACTION PROPOSED:**

President Harroz recommends the Board of Regents amend the OU Dependent Child Tuition Waiver Program to specify that the extended eligibility approved in June 2021 is available to the faculty members initially identified to transition employment to OU Health on January 1, 2022, who then became dually employed by OU and OUHP, holding a paid FTE with each institution.

BACKGROUND AND/OR RATIONALE:

In June 2021, the Board of Regents amended the OU Dependent Child Tuition Waiver Program (the “Program”) to extend eligibility under the Program to faculty members who become dually-employed by OU and Oklahoma University Health Partners, Inc. (“OUHP”) regardless of whether the faculty member is in a benefits eligible position and appointed at .75 Full-Time Equivalent (FTE), and without requiring that the faculty member or his/her dependent child be added to OU employee medical insurance plan. President Harroz recommends the Board of Regents further amend the Program to specify that those eligible are the faculty members initially identified to transition employment to OU Health on January 1, 2022, who then became dually employed by OU and OUHP, holding a paid FTE with each institution.

The OU Board of Regents approved the Program on December 4, 2014 and certain guidelines were implemented to ensure consistent application of the Program. Those guidelines include eligibility requirements that provide, in part, that in order to participate in the Program an employee must be employed in a benefits eligible position and appointed at .75 FTE, as well as enroll himself/herself and their dependent(s) in the OU employee medical insurance plan. Currently, faculty members who also provide services to the University of Oklahoma Health Sciences Center (“HSC”) are included as eligible for the Program so long as they satisfy the requirements described above.

As part of the integration with Oklahoma University Medicine, Inc. (“OUMI”), faculty members who provide professional services on behalf of HSC will become employed by OUHP with regard to that service. As a result, those faculty members will become dually-employed such that they will remain employed by OU with regard to their faculty services and will become simultaneously employed by OUHP with regard to their clinical services. Under this dual-employment relationship, a faculty member may or may not continue to be a .75 FTE. Further, regardless of FTE status, all dually employed faculty members will cease to be eligible under the OU medical insurance plan and instead will become eligible for medical benefits offered through their employment by OUHP. As a result, such dually employed faculty members would no longer be able to satisfy the eligibility requirements of the Program.

In order to avoid this unintended consequence of the integration and the dual-employment structure, and subject to the Program’s continued compliance with the requirements of Internal Revenue Code Section 117, the University desires to amend the Program to extend eligibility thereunder to all faculty members who were initially identified on January 1, 2022,

who are now dually-employed by OU and OUHP, holding a paid FTE with each institution, regardless of whether the faculty member is in a benefits eligible position and appointed at .75 Full-Time Equivalent (FTE), and without requiring that the faculty member or his/her dependent child be enrolled in or added to the OU employee medical insurance plan.

AGENDA ITEM 19

ISSUE: AMENDMENT TO DEFINED CONTRIBUTION RETIREMENT PLAN – HSC

ACTION PROPOSED:

President Harroz recommends the Board of Regents authorize the adoption of amendments to the University of Oklahoma Retirement Plan and the University of Oklahoma Defined Contribution Plan to immediately vest the accounts of all Eligible HSC Employees (as that term is defined under the Plans) with less than three years of service under the Plans who became employees of Oklahoma University Medicine, Inc, as of June 26, 2022.

BACKGROUND AND/OR RATIONALE:

The University sponsors and maintains the University of Oklahoma Retirement Plan and the University of Oklahoma Defined Contribution Plan (the Plans), as amended and restated effective January 1, 2011, for the benefit of its eligible employees, including, but not limited to, those who provide services to the Health Sciences Center (HSC). The Plans include a vesting requirement under which a participant must complete three years of service in order to become 100% vested in his or her Institution Contributions. As part of the integration with Oklahoma University Medicine, Inc. (OUMI), certain Plans participants who provide services to the HSC became employed by OUMI effective June 26, 2022, and will therefore no longer accrue additional years of service credited toward vesting under the Plans. In order to ensure that those participants with less than three years of service under the Plans who became employed by OUMI are not negatively impacted by the integration, amendments are needed to accelerate their vested status as of June 26, 2022.

AGENDA ITEM 23

ISSUE: APPOINTMENT OF THE COLLEGE OF MEDICINE ADMISSIONS BOARD AND INTERVIEW SUBCOMMITTEE – HSC

ACTION PROPOSED:

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

The College of Medicine Policy #204 states the following:

The College of Medicine Admissions Board composition and conduct of business shall be in compliance with relevant and required Liaison Committee on Medical Education (LCME) accreditation standards dealing with medical school admissions policies and procedures.

The Admissions Board shall be made up of eleven (11) members. The Chair of the Admissions Board, a College of Medicine faculty member, is appointed by the admissions Board from a slate of candidates provided by the current Chair and Immediate-Past Chair. The other members of the Admissions Board are recommended by the Interview Subcommittee (with the exception of one member who is selected by the Committee on Committees) to the Admissions Board, who appoints the new at-large members. The Admissions Board members serve staggered 3-year terms. The Associate Dean for Admissions is an *ex officio*, non-voting member. Appointment of individuals to the Admissions Board is provided as information to the University of Oklahoma Board of Regents and The Oklahoma State Regents for Higher Education each year.

The Admissions Board is assisted in conducting its business by a subcommittee of interviewers. Subcommittee members conduct interviews and evaluate each applicant who is invited for an interview using a standard evaluation instrument. No one shall be granted acceptance to the College of Medicine without an interview.

The interview subcommittee of the Admissions Board is selected by sending a solicitation of interest annually via various methods to faculty and county and state medical associations. Attempt will be made to have a diverse subcommittee consistent with the College's diversity statement, as well as with the geography of Oklahoma and specialty representation. Appointment to the interviewer subcommittee is for a one-year term. There is no limit on the number of terms an individual may serve on the subcommittee.

AGENDA ITEM 24**ISSUE: MICROSOFT PRODUCTS – ALL****ACTION PROPOSED:**

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

Board of Regents' policies require that acquisition contracts that merely establish unit pricing, availability and other terms and conditions but which are indefinite as to quantity and delivery must be reported to the Board of Regents if the cumulative orders against them are expected to exceed \$1,000,000 annually.

This item reports the anticipated activity for Microsoft Suite of Products: Office 365, SQL, RDS, Power BI, Azure, SharePoint, Visio, and other applications included in the EES suite for annual maintenance using software reseller Dell for fiscal year 2022 and 2023, with an estimated annual renewal to be \$1.4 million per year. Microsoft provides the University's productivity, operating systems, and other applications used by Norman, Health Sciences Center, and Tulsa campuses.

The supplier contract was awarded through a competitive bid process to support the Information Technology Department's commitment to assure all staff, students, and faculty have the operating and analytical tools necessary to perform at optimum levels of performance. The contract to Dell Marketing is available through the University of Oklahoma's competitive bid process according to the Board of Regents' policies regarding competition for the acquisition of products and services.

PREVIOUS YEAR EXPENDITURES

	FY2021	FY2022	FY2023
Microsoft Enterprise (formerly Premier)	\$281,200	\$185,700	\$212,800
Microsoft EES Suite	\$711,500	\$1,112,400	\$1,183,200
Microsoft O365 Government GCC	NA	\$38,000	\$40,000
Total	\$992,700	\$1,336,100	\$1,436,000

Funding has been identified, is available and budgeted within the Information Technology operating account.

AGENDA ITEM 25**ISSUE: ORACLE PRODUCTS – ALL****ACTION PROPOSED:**

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

Board of Regents' policies require that acquisition contracts that merely establish unit pricing, availability and other terms and conditions but which are indefinite as to quantity and delivery must be reported to the Board of Regents if the cumulative orders against them are expected to exceed \$1,000,000 annually.

This item reports the anticipated activity for the maintenance supplier contract for fiscal year 2023, estimated to be \$2.4 million. Oracle provides the University's computing software infrastructure used by the Norman, Health Sciences Center and Tulsa campuses.

The supplier contract is awarded to support the Information Technology Department to secure support coverage for database maintenance, and other software maintenance for the multiple critical systems including payroll, human resources, and financial applications. The contract to Oracle Corporation of Irving, Texas is available through the State of Oklahoma from a competitive bid according to State purchasing rules and satisfies the Board of Regents policies regarding competition for the acquisition of products and services.

PREVIOUS YEAR EXPENDITURES

	FY20	FY21	FY22	FY23 Estimate
Oracle Database Support Named User	\$1,322,470	\$1,295,730	\$1,347,560	\$350,000

Total	\$1,945,120	\$2,342,030	\$2,019,830	\$2,415,150

Funding has been identified, is available and budgeted within the Information Technology operating budget.

AGENDA ITEM 26

**ISSUE: CISCO NETWORKING INFRASTRUCTURE PRODUCTS AND SERVICES
PURCHASE – ALL**

ACTION PROPOSED:

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

Board of Regents' policies require that acquisition contracts that merely establish unit pricing, availability and other terms and conditions but which are indefinite as to quantity and delivery must be reported to the Board of Regents if the cumulative orders against them are expected to exceed \$1,000,000 annually.

This contract supports the University's network infrastructure by establishing pricing and availability of Cisco branded networking products and services at significant discounts. Cisco products are the standard for campus switched networks. The purchase of these products and services will be made utilizing vendors who competitively bided on Oklahoma State Contract SW1006C.

The anticipated annual amount will be approximately \$4,000,000 for Cisco network products, maintenance, and services for the Cisco network program. Therefore, the Cisco network products, services, and maintenance expenditures are being reported in compliance with Board of Regents Policies and Procedures.

This item reports fiscal year 2023 to exceed an annual spending of \$1,000,000.

Funding is identified and available from the Information Technologies' operating budget.

AGENDA ITEM 27**ISSUE: QUARTERLY REPORT OF ON-CALL ARCHITECTS, ENGINEERS, CONSTRUCTION MANAGERS & CONSTRUCTION SERVICES – ALL****ACTION PROPOSED:**

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

- I. In June 2020, the Board of Regents authorized a group of architectural and engineering firms to provide professional on-call services, and authorized a group of construction management firms to provide on-call services for minor construction and renovation projects.
- II. The Board of Regents policy governing the buying and selling of goods and services states that purchase obligations between \$50,000 & \$1,000,000 must be reported quarterly to the board as an information item.

Work completed during the fourth quarter of Fiscal Year 2022 by on-call architectural, engineering, and construction management firms are summarized below.

AGENDA ITEM 28

ISSUE: QUARTERLY REPORT OF PURCHASES - ALL

ACTION PROPOSED:

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

Section 4.11.7 of the Board of Regents Manual requires that certain purchases “must be reported to the Board of Regents at least quarterly.” The quarterly report for January 1, 2022, to March 31, 2022, is attached. This report includes a synopsis of contracts entered to acquire goods and services by category and funding source. This data does not include purchasing card purchases or travel costs because such purchases do not fall within University Procurement. Additionally, these do not include certain small-dollar purchases made through the University purchasing platforms like office supplies, lab supplies, and standard IT equipment. Procurement will begin providing greater detail and spending analyses in future reports.

The report is sorted by funding source (Educational & General, Non-Sponsored, Sponsored, *etc.*), then by supplier name, campus, and department. As required by Section 4.11.7, the report identifies sole source purchases.

These charts provide a synopsis of contracts entered to acquire goods and services by category and funding source between January 1 and March 31. This data does not include purchasing card purchases or travel costs because such purchases do not fall within University Procurement. Additionally, these do not include certain small-dollar purchases made through the University purchasing platform like office supplies, lab supplies, and standard IT equipment. Procurement will begin providing greater detail and spend analyses in future reports.

AGENDA ITEM 1**ISSUE: CONTRACTS AND GRANTS – RSU****ACTION PROPOSED:**

President Rice recommends the Board of Regents ratify the awards submitted with this agenda item.

<u>Award Title</u>	<u>Grantor</u>	<u>Award Period</u>	<u>Award Amount</u>
Educational Opportunity Center	U.S. Dept. of Education	09/01/22 – 08/31/23	\$ 639,912
TRIO Student Support Services	U.S. Dept. of Education	09/01/22 – 08/31/23	\$ 261,888
TRIO Talent Search	U.S. Dept. of Education	10/01/22 – 09/30/23	\$ 277,375

BACKGROUND AND/OR RATIONALE:

Regents' Policy 4.10.3 requires contracts involving annual revenues of \$150,000 or more to be reported to the Board. Additionally, if the agreement would establish or make policy of the University or would otherwise involve a substantial service to be performed by the University, it must be submitted to the Board for approval.

In accordance with Regents' policy, a list of awards and/or modifications in excess of \$250,000 or that establish or make policy for the University, or that otherwise involve a substantial or significant service to be performed by the University as shown below.

Educational Opportunity Center:

Grantor:	U.S. Department of Education	
Award Period:	9/1/2022-8/31/2023	\$639,912
Performance Period:	9/1/2021-8/31/2026	\$1,279,824
Remainder:	End of Performance Period	\$0

Program Purpose: The Educational Opportunity Center (EOC) program provides counseling and information on university admissions to qualified adults who want to enter or continue a program of postsecondary education. An important objective of EOC is to counsel participants on financial aid options and to assist in the application process. The goal of EOC is to increase the number of adult participants who enroll in postsecondary education institutions.

Services Provided by the Program:

- Academic advice
- Personal counseling
- Career workshops
- Information on postsecondary educational opportunities

- Information on student financial assistance
- Assistance in completing applications for university admissions, testing, and financial aid
- Coordination with nearby postsecondary institutions
- Media activities designed to involve and acquaint the community with higher education opportunities
- Tutoring/Mentoring

TRIO Student Support Services:

Grantor:	U.S. Department of Education	
Award Period:	9/1/2022 – 8/31/2023	\$261,888
Performance Period:	9/1/2020 – 8/31/2025	\$785,663
Remainder:	End of Performance Period	\$0

Program Purpose: The Student Support Services (SSS) grant is to increase the retention and graduation rates of participants and to help students make the transition from one level of higher education to the next. Projects include academic tutoring, which may include instruction in reading, writing, study skills, mathematics, science, and other subjects; advice and assistance in postsecondary course selection, assist students with information on both the full range of student financial aid programs, benefits, and resources for locating public and private scholarships; and assistance in completing financial aid applications.

TRIO Talent Search:

Grantor:	U.S. Department of Education	
Award Period:	10/1/2022 – 9/30/2023	\$277,375
Performance Period:	10/1/2022 – 9/30/2026	\$554,750
Remainder:	End of Performance Period	\$0

Program Purpose: The Educational Talent Search (ETS) grant supports the success, growth and development of college-bound students, grades Jr. High – 12. Services offered are scheduled with the school and may be individualized or group. Activities include tutoring and mentoring, academic enrichment workshops, adjustments to high school, financial aid and scholarship assistance, and cultural and educational trips.

AGENDA ITEM 2

ISSUE: RATIFICATION OF CUSTODIAL SERVICES RENEWAL – RSU

ACTION PROPOSED:

President Rice recommends the Board of Regents ratify the interim approval given per the Board Bylaws to correct the previously approved Board agenda item to reflect Sodexo, LLC as the successful custodial contractor for a one-year period beginning July 1, 2022.

BACKGROUND AND/OR RATIONALE:

The agenda item approved during the June 21-22, 2022, meeting of the Board of Regents incorrectly identified the successful custodial contract services provider. Interim approval to correctly identify Sodexo LLC as the successful custodial contract services provider for a period of one year beginning July 1, 2022, was granted by the Chairman, Vice Chairman, and the RSU Liaison on June 30, 2022 so the contract could begin on the approved date.

AGENDA ITEM 3

AGENDA ITEM 6

ISSUE: ANNUAL INVESTMENT REPORT - RSU

ACTION PROPOSED:

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

The annual report of investment activity by Rogers State University is hereby submitted. Rogers State University invests its temporary idle cash in accordance with Section 4.1 of the Regent's Policy Manual for CU/RSU. Rogers State University invests all available operating funds with the Oklahoma State Treasurer's Cash Management Program (CMP) and funds held by the Bank of Oklahoma. The Business Office monitors the cash requirements of the institution to maximize the amount of funds invested.

During the fiscal year ended June 30, 2022, the average invested balance was \$10,054,066 for all funds invested. Rogers State University earned a total of \$105,615 in interest on investments. The earned interest rates ranged from 1.18 to 0.95%. The annual average rate of return was calculated at a rate of 1.05% for investments with the Oklahoma State Treasurer's office.

AGENDA ITEM 7**ISSUE: QUARTERLY FINANCIAL ANALYSIS - RSU****ACTION PROPOSED:**

This is reported for information only. No action is required.

BACKGROUND AND/OR RATIONALE:

By request of the Board of Regents, the Rogers State University Statement of Net Position as of June 30, 2022 Statement of Revenues, Expenses, Changes in Net Position for the twelve months then ended and related Executive Summary are attached.

QUARTERLY FINANCIAL ANALYSIS
For the twelve months ended June 30, 2022

EXECUTIVE SUMMARY

Highlights from the Statements of Net Position as of June 30, 2022, and Statement of Revenues, Expenses and Changes in Net Position for the twelve months ended June 30, 2022 are presented below for information only.

Statement of Net Position:

The University saw an increase of \$1.4 million in total assets. Cash and cash equivalents increased \$5.4 million over the year. Net capital assets decreased \$2.5 million due to depreciation.

Total liabilities increased \$6.5 million. This increase is the net of a \$9.3 million increase in our net pension liability and a \$2.4 million decrease in our bond/lease payables.

The net effect of these changes is an increase of \$2 million in net position.

Statement of Revenues, Expenses and Changes to Net Position

Although tuition and fee revenue decreased \$0.8 million, the decrease was offset by increases in contracts and grants of \$0.9 million and Auxiliary Enterprises revenue of \$0.5 million.

Operating expenses were up \$2.1 million with across-the-board increases in all areas except scholarships. Scholarship expense is down due to lower enrollment. As part of the Strategic Enrollment Plan we are working on with Ruffalo-Noel Levitz, we are leveraging some reserves to increase scholarship offerings.

Nonoperating revenues were roughly flat with no material changes. However, the capital funding provided by the state was up \$0.8 million.

The net result of all changes was a decrease of \$0.8 million in net position.

This report is unaudited and presented for informational purposes only.
