PRIOR LEARNING ASSESSMENT CREDIT

2023 - 2024

ou.edu/registrar/priorlearning

ADVANCED PLACEMENT

A placement examination is a departmental examination which is given to determine a student's level of competence in a subject and to place that student in the course where the probability of his or her success seems greatest. Performance on placement examinations does not result in the awarding of academic credit, but students who successfully place into advanced level courses may — with departmental approval — be able to establish prior learning assessment credit in lower division courses. For specific information about procedures regarding advanced placement and establishing prior learning assessment credit, contact the responsible departments.

CREDIT FOR PRIOR LEARNING ASSESSMENT

OU encourages capable students to seek prior learning assessment credit for knowledge they may have acquired in a variety of ways. Students enrolled (or pre-enrolled) at OU and former students eligible to re-enroll may take prior learning assessment examinations for undergraduate credit, provided they have not been enrolled in an equivalent course at the college level and received a grade other than W.

- A student enrolled in and attending a course may earn credit in that course by prior learning assessment examination up to the end of the second week of class in a regular semester or the first week of a summer session. If a student earns credit in the course by examination, the student may drop the course enrollment with no fee assessment, provided the course is dropped within the specified free drop period for the term. Refunds will not be made for courses dropped after the defined free drop period.
- Students will receive credit for prior learning according to the credit recommendations published in the current brochure/website at the time we RECEIVE the prior learning scores.
- The amount of prior learning assessment credit that may be applied toward a degree is subject to the OU graduation requirements and the degree-recommending college in which a student will earn a degree. The dean of the degree-recommending college will determine how this credit applies toward a degree.
- The neutral grade of satisfactory (S) will be assigned to all types of prior learning assessment credit authorized by the Oklahoma State Regents for Higher Education.
- Should a student fail a prior learning assessment examination, no grade will be recorded. In addition, a student may not receive credit for a repeat of an exam previously failed. Students should consult OU Admissions and Recruitment or the Center for Independent and Distance Learning to discuss other test options.
- The regulations governing prior learning assessment credit mentioned above apply to all of the OU prior learning assessment options available.
- **The credit recommendations outlined on the following pages are effective through January 2024, and are subject to change thereafter.** However, OU is not responsible for changes in scoring or test offerings made by national testing programs. When such changes occur, OU may have to adjust its credit acceptance policies accordingly. For the most current information on OU's prior learning assessment credit acceptance policies, visit ou.edu/registrar/priorlearning.

THE ADVANCED PLACEMENT PROGRAM (AP)

Administered by the College Entrance Examination Board, this program allows high school students to take examinations for credit at the college level. High school counselors will assist students with testing arrangements. Below is a list of AP examinations for which OU awards credit, and the credit awarded for various scores received. Scores of 1 and 2 are not acceptable for credit. The courses listed in the various test-score columns are OU courses, and the last digit of the four-digit number indicates the number of semester hours earned when a student is awarded credit for the course.

For questions concerning AP services, call (888) 225-5427, or email apstudents@info.collegeboard.org.

OKLAHOMA SCHOOL OF SCIENCE & MATHEMATICS

OSSM coursework is eligible for college credit due to the unique, intensive nature of the school. OSSM offers a high-level curriculum delivered by faculty possessing graduate degrees in the content area of instruction and has highly competitive admission criteria. OSSM has a legislatively mandated statewide mission, and a legislatively prescribed board of trustees which requires scientists, mathematicians, and those who hold graduate degrees as members. Institutional faculty shall annually review and approve OSSM prior learning credit. All other Oklahoma public and private high schools are not included in this provision. These high schools may utilize AP and concurrent enrollment opportunities, similar to the OSSM satellite campuses connected to a school district.

For more information about Oklahoma School of Science & Mathematics (OSSM), please visit: <https://www.oussm.edu/> or call (405) 521-6436.

TRANSFER OF PRIOR LEARNING ASSESSMENT CREDIT AWARDED BY ANOTHER INSTITUTION OF HIGHER EDUCATION

Prior learning assessment credit posted on transcripts from institutions in the Oklahoma State System of Higher Education will transfer to the University subject to the same conditions as resident credit from these campuses.

Prior learning assessment credit posted on transcripts from all other appropriately accredited institutions will be accepted by the University as long as the credit was earned through one of the prior learning assessment mechanisms mentioned in this brochure. The dean of the college in which a student will earn a degree will determine how this credit applies toward the degree.
