## CONFLICT OF INTEREST DISCLOSURE

List any Research Council member who shares a department, a current/pending project, a financial or formal relationship, or a family relationship with you or a co-applicant — or any other reason their review could compromise impartiality. Enter "None" if none apply. Council roster: [ou.edu/research-norman/about/research-council/current-members](http://ou.edu/research-norman/about/research-council/current-members).

## ABSTRACT (200 words or fewer; written for a non-expert)

Describe the proposed project and its expected scholarly outcomes and impact.

## SIGNATURES

Signatures indicate consent for confidential review by the Research Council (and possibly other OU faculty in a related discipline). FIP is a reimbursement program: the OVPR reimburses the Department after the Final Report is approved. Digital signatures: the Applicant signs first. Applying that signature locks the form — no further changes can be made to any text field, checkbox, or budget entry — leaving only the remaining signature and date boxes open. The Co-Applicant signs next, and the Department Chair and Dean may sign in either order, whichever the routing requires. Complete and verify every entry before the Applicant signs; any edit made afterward will invalidate the signature.
